**The Art and Craft of Motion Pictures** Vincent LoBrutto, 2019-08-02 This volume can rightfully be called a film school in a single book. Investigating and analyzing the elements and concepts of motion picture creation, this book looks closely at 25 films that represent a wide range of styles and subjects. Although most motion picture viewers have seen numerous movies in their lifetime, few in the general public have a firm and deep understanding of how motion pictures are created or a grasp of the intricacies of cinematic storytelling and content. By presenting 25 films, American and international, Hollywood and independent, this book educates and enlightens readers about the details of the motion picture creation process. Some readers will have viewed certain films in the volume, but many will be introduced to major cinematic works within the canon of great and essential films for the very first time. Topics explored include animation, period films, editing, directorial style, and non-linear cinematic structure. Readers will learn about the origin of the jump cut in *Breathless*, time and space in *Hiroshima Mon Amour*, and the editing in Orson Welles's essay film *F is for Fake*. *The Art and Craft of Motion Pictures: 25 Movies to Make You Film Literate* will educate the novice and avid moviegoer alike about the inner workings of this dynamic, popular, and culturally significant art form. *Screenwriting Fundamentals* Irv Bauer, 2016-11-03

*Screenwriting Fundamentals: The Art and Craft of Visual Writing* takes a step-by-step approach to screenwriting, starting with a blank page and working through each element of the craft. Written in an approachable, anecdote-infused style that's full of humor, Bauer shows the writer how to put the pieces together, taking the process of screenwriting out of the cerebral and on to the page. Part One of the book covers character, location, time frame, and dialogue, emphasizing the particularity in writing for a visual medium. Part Two of the book focuses on the narrative aspect of screenwriting, proceeding incrementally from the idea and story outline through plotting and writing the treatment. The workshop in a book concludes with writing the First Draft. A unique emphasis on the visual elements of storytelling, because the camera is always present, the screenplay must act as a guide for the director and the editor. A workshop in a book approach that walks the reader step by step through a screenplay, focusing on character, location, time frame, visual components, and transitions, with plenty of exercises that generate material for the narrative writing process. A process-oriented approach combined with a lighthearted tone and approachable style that allows the reader to ease into the daunting task of writing a First Draft and takes them all the way through to the end. *First Draft in Hand*
