to stimulate individual collective or civic creativity yet through a theoretical exploration of urban subversion the book argues that to be truly creative is to be radically different from those creative practices that the Creative City caters for Moreover the book analyses the role that urban subversion and subcultures have in the contemporary city in challenging the dominant political economic hegemony of urban creativity Creative activities of people from cities all over the world are discussed and critically analysed to highlight how urban creativity has become co opted for political and economic goals but through a radical reconceptualisation of what creativity is that includes urban subversion we can begin to realise a creative city with a small c **The Creative City** Nada Švob-Đokić,2007 International Conference Arte-Polis 2 ,2008 **Urban Land** ,2007-04 Closing the Digital Divide Stewart Marshall,Wallace J.
