McCarthy, James Jackson Kilpatrick, 1979-01-01      *Art and Political Thought in Medieval England, C. 1150-1350* Laura Slater (Lecturer in history of art), 2018 An exploration of how power and political society were imagined represented and reflected on in medieval English art Images and imagery played a major role in medieval political thought and culture but their influence has rarely been explored This book provides a full assessment of the subject Starting with an examination of the writings of late twelfth century courtier clerics and their new vision of English political life as a heightened religious drama it argues that visual images were key to the development and expression of medieval English political ideas and arguments It discusses the vivid pictorial metaphors used in contemporary political treatises and highlights their interaction with public decorative schemas in English great churches private devotional imagery seal iconography illustrations of English history and a range of other visual sources Meanwhile through an exploration of events such as the Thomas Becket conflict the making of Magna Carta the Barons War and the deposition of Edward II it provides new perspectives on the political role of art especially in reshaping basic assumptions and expectations about government and political society in medieval England LAURA SLATER is a Fulford Junior Research Fellow at Somerville College University of Oxford      **A Hopeful Political Imagination** Oscar Guardiola-Rivera, 2025-09-18 Bringing political criticism a variety of theoretical approaches an understanding of history and the author's concrete experiences together this book calls for a more courageous and hopeful imagination in dark times      **Zoology in Early Modern Culture: Intersections of Science, Theology, Philology, and Political and Religious Education**, 2014-10-09 This volume tries to map out the intriguing amalgam of the different partly conflicting approaches that shaped early modern zoology Early modern reading of the Book of Nature comprised among others the description of species in the literary tradition of antiquity as well as empirical observations vivisection and modern eyewitness accounts the translation of zoological species into visual art for devotion prayer and religious education but also scientific and scholarly curiosity theoretical philosophical and theological thinking regarding God's creation the Flood and the generation of animals new attempts with respect to nomenclature and taxonomy the discovery of unknown species in the New World impressive Wunderkammer collections and the keeping of exotic animals in princely menageries The volume demonstrates that theology and philology played a pivotal role in the complex formation of this new science Contributors include Brian Ogilvie Bernd Roling Erik Jorink Paul Smith Sabine Kalff Tam's Demeter Amanda Herrin Marringje Rikken Alexander Loose Sophia Hendrikx and Karl Enenkel      **The Philosophical Animal** Eduardo Mendieta, 2024-06-01 Humans are animals who fictionalize other animals to assess their humanness We are philosophical animals who philosophize about our humanity by projecting images onto a mirror about other animals Spanning literature philosophy and ethics the thread uniting *The Philosophical Animal* is the bestiary and how it continues to inform our imaginings Beginning with an exploration

of animals and women in the literary work of Coetzee famous for his book on the Lives of Animals Eduardo Mendieta then dives into the genre of bestiaries in order to investigate the relation between humanity and animality From there he approaches the works of Derrida and Habermas from the standpoint of genetic engineering and animal studies While we have intensely modified many species genetically we have not done this to ourselves Why Finally Mendieta deals with the political and ethical implications suggested by this question before ending on an autobiographical note about growing up around so called animals and in particular horses
