 The Neo-Thomists Gerald A. McCool,1994 This work provides an introduction to the full range of Neo Thomist writings and should be of interest to students of 19th and 20th century theology and philosophy Catalogue of All Books in the Circulating and Reference Departments of the Public School Library, Columbus ... Columbus (Ohio). Public School Library,1897 The Philosophy of Charles Hartshorne Charles Hartshorne,1991 Part of a series of studies of contemporary philosophers this volume focuses on Charles Hartshorne It contains 29 descriptive and critical essays on his philosophy as well as his intellectual autobiography and detailed replies to the critics *Of Reality* Gianni Vattimo,2016-03-15 We think it is wise to accept reality rather than fight for something that does not exist or might never be But in *Of Reality* Gianni Vattimo condemns this complacency with its implicit support of the status quo Instead he urges us to never stop questioning

contrasting or overcoming reality which is not natural inevitable or objective Reality is a construct reflecting among other things our greed biases and tendencies toward violence It is no accident Vattimo argues that the call to embrace reality has emerged at a time when the inequalities of liberal capitalism are at their most extreme Developed from his popular Gifford Lectures this book advances a critical approach that recovers our interpretive powers and native skepticism toward normative claims Though he recognizes his ideas invite charges of relativism the philosopher counters with a discussion of truth highlighting its longstanding ties to history and social circumstance Truth is always contingent and provisional and reason and reasonableness are bound to historical context Truth is therefore never objective and resistance to reality is our best hope to defeat the indifference that threatens the scope of freedom and democracy *The Roots of Hermeneutics in Kant's Reflective-Teleological Judgment* Horst Ruthrof, 2022-11-28 This book challenges the standard view that modern hermeneutics begins with Friedrich Ast and Friedrich Schleiermacher arguing instead that it is the dialectic of reflective and teleological reason in Kant's Critique of Judgment that provides the actual proto hermeneutic foundation It is revolutionary in doing so by replacing interpretive truth claims by the more appropriate claim of rendering opaque contexts intelligible Taking Gadamer's comprehensive analysis of hermeneutics in *Truth and Method* 1960 as its point of departure the book turns to Kant's Critiques reviewing his major concepts as a coherent system in relation to his *sensus communis* At the heart of the book is the interaction between reflective bottom up search and teleological top down interpretative projection as provided in Part II of the third Critique This text contends that Kant's broad definition of nature invites the liberation of the reflective teleological judgment from its biological exemplifications and so permits us to establish its generalised status as a path breaking methodological tool Kant's dialectic of reflective search and meaning bestowing stipulated teleology is asserted to anticipate a series of motifs commonly associated with hermeneutics Figures covered include Dilthey Husserl Ingarden Heidegger Gadamer Apel Habermas Ricoeur Derrida Foucault Lyotard Deleuze Vattimo Nancy and Caputo Their collective contributions to interpretation allow for a review of the evolution of hermeneutics from the perspective of the Kantian critique of the limitations of human cognition The book is written for the informed general reader but will likewise appeal to advanced undergraduate and graduate students as well as researchers in the humanities and social sciences
