Foster,1942      *A Primitive Mexican Economy. Centennial Anniversary Publication [of] the American Ethnological Society, Etc* George McClelland FOSTER,1942      *A Primitive Mexican Economy* George MacClelland Foster,1966      The Mexican Revolution: Counter-revolution and reconstruction Alan Knight,1990-01-01

Volume 2 of The Mexican Revolution begins with the army counter revolution of 1913 which ended Francisco Madero s liberal experiment and installed Victoriano Huerta s military rule After the overthrow of the brutal Huerta Venustiano Carranza came to the forefront but his provisional government was opposed by Pancho Villa and Emiliano Zapata who come powerfully to life in Alan Knight s book Knight offers a fresh interpretation of the great schism of 1914 15 which divided the revolution in its moment of victory and which led to the final bout of civil war between the forces of Villa and Carranza By the end of this brilliant study of a popular uprising that deteriorated into political self seeking and vengeance nearly all the leading players have been assassinated In the closing pages Alan Knight ponders the essential question what had the revolution changed His two volume history at once dramatic and scrupulously documented goes against the grain of traditional assessments of the last great revolution      Understanding Commodity Cultures Scott Cook,2004 In this overview of economic anthropology studies of Mexico Guatemala Scott Cook argues that because Mesoamerican societies have long been involved in production for exchange they must be understood as commodity cultures where individuals pursue their own self interest      *Economic Anthropology* Chris Hann,Keith Hart,2011-03-28 This book is a new introduction to the history and practice of economic anthropology by two leading authors in the field They show that anthropologists have contributed to understanding the three great questions of modern economic history development socialism and one world capitalism In doing so they connect economic anthropology to its roots in Western philosophy social theory and world history Up to the Second World War anthropologists tried and failed to interest economists in their exotic findings They then launched a vigorous debate over whether an approach taken from economics was appropriate to the study of non industrial economies Since the 1970s they have developed a critique of capitalism based on studying it at home as well as abroad The authors aim to rejuvenate economic anthropology as a humanistic project at a time when the global financial crisis has undermined confidence in free market economics They argue for the continued relevance of predecessors such as Marcel Mauss and Karl Polanyi while offering an incisive review of recent work in this field Economic Anthropology is an excellent introduction for social science students at all levels and it presents general readers with a challenging perspective on the world economy today Selected by Choice as a 2013 Outstanding Academic Title      **Traditional Tribal and Peasant**

**Economies** George Dalton,1971      **Uncertainties in Peasant Farming** Sutti Ortiz,2021-01-07 This book examines the life and historical background of the Paez peasants of Colombia and their relationship with the land including issues of tenure inheritance and the allocation of resources      *Industrial Work and Life* Massimiliano Mollona,Geert De Neve,Jonathan Parry,2020-12-23 *Industrial Work and Life* An Anthropological Reader is a comprehensive anthropological overview of industrialisation in both Western and non Western societies Based on contemporary and historical ethnographic material the book unpacks the world of industry in the context of the shop floor the family and the city revealing the rich social and political texture underpinning economic development It also provides a critical discussion of the assumptions that inform much of the social science literature on industrialisation and industrial modernity The reader is divided into four thematic sections each with a clear and informative introduction historical development of industrial capitalism shopfloor organisation the relationships between the workplace and the home the teleology of industrial modernity and working class consciousness With readings by key writers from a range of backgrounds and disciplines *Industrial Work and Life* is the essential introduction to the study of industrialisation in different societies It will appeal to students across a wide range of subjects including anthropology comparative sociology social history development studies industrial relations and management studies Includes essays by E P Thompson Aihwa Ong Jonathan Parry Thomas C Smith Harry Braverman Michael Burawoy Huw Beynon Fran oise Zonabend James Carrier Leslie Salzinger Ching Kwan Lee Ronald Dore Tom Gill Carla Freeman Max Gluckman James Ferguson Chitra Joshi Lisa Rofel Geert De Neve Karl Marx Rajnarayan Chandavarkar Robert Roberts June Nash Christena Turner      **Organizational Studies: Objectivity and its other** ,2001      **Southwestern Journal of Anthropology** ,1956      **General Index** American Anthropological Association,1930      *The American Economic Review* ,1943 Includes annual List of doctoral dissertations in political economy in progress in American universities and colleges and the Hand book of the American Economic Association      Regions of Refuge Gonzalo Aguirre Beltrán,Deward E.
