A Reconstruction Of Historical Materialism:

A Reconstruction of Historical Materialism Jorge Larraín, 1992 *Freedom Rising* Debra M. Satz, Massachusetts Institute of Technology. Department of Linguistics and Philosophy, 1987 Emancipation and Illusion Marie Fleming (Ph. D.), 1997 In this comprehensive analysis of Jürgen Habermas's philosophy and social theory Marie Fleming takes strong issue with Habermas over his understanding of rationality and the lifeworld emancipation history and gender Throughout the book she focuses attention on the various ways in which an idea of emancipation motivates and shapes his universalist theory and how it persists over several major changes in methodology Her critique of Habermas begins from the view that universalism has to include a vision of gender equality and she asks why Habermas despite deeply held concerns about equality and inclusiveness repeatedly and systematically relegates matters of gender to secondary status in his social and moral theory She extends her critique to a range of issues in his theory of rationality and examines what she views as his very problematical claims about truthfulness art and bourgeois intimacy The point of Fleming's critique of Habermas is not to dispute universalism but to build on the key universalist principles of inclusiveness and equality She is not persuaded by the view shared by both sympathizers of Habermas and his postmodern critics that to be for or against Habermas is to be for or against universalism Her intention rather is to show that Habermas's theory of modernity is so structured that it cannot achieve its universalist aims Contending that his theory is not universalist enough she claims that universalism has to be reconceived as a radical critical and historical project **Jürgen Habermas on Society and Politics** Jürgen

Habermas, 1989-11-01 Here for the first time are Habermas's most important writings on society the state and social theory collected in one volume For more than three decades Habermas has consistently attempted to supply foundations for a reconstructed Marxist social theory that provides a critical analysis of modernity He has defended the position that only if a general notion of reason can be invoked can we hope to sustain a democratic social order This carefully edited volume includes selections from Habermas's earliest works through his most recent essays on the aim of social science the structure of a theory of action and society the development of modern society psychoanalysis and the crisis of the welfare state

Radical Intellectuals and the Subversion of Progressive Politics Michael J. Thompson, Gregory Smulewicz-Zucker, 2015-09-09 *Radical Intellectuals and the Subversion of Progressive Politics* is a challenge to contemporary radical politics and political thought This collection of essays critiques the dominant trends and figures on the left that have distorted the legacy of progressive politics arguing that they have moved politics away from issues of class and economic power toward a preoccupation with culture and identity The contributors discuss this new radicalism from the perspective of a more rational form of leftism capable of reviving interest in a more politically relevant form of politics In Kant's Wake Tom Rockmore, 2008-04-15 *In Kant's Wake* evaluates the four main trends in philosophy in the twentieth century Marxism Anglo American analytic American pragmatism and continental philosophy and argues that all four evolved in reaction to Kant

s fascinating and demanding philosophy Gives a sense of the main thinkers and problems and the nature of their debates Provides an intriguing assessment of the accomplishments of twentieth century philosophy Historical Materialism Nikolai Bukharin, 1925 Habermas on Historical Materialism Tom Rockmore, 1989 Communication and the Evolution of Society Jürgen Habermas, 2015-10-07 In this important volume Habermas outlines the views which form the basis of his critical theory of modern societies The volume comprises five interlocking essays which together define the contours of his theory of communication and of his substantive account of social change What is Universal Pragmatics is the best available statement of Habermas's programme for a theory of communication based on the analysis of speech acts In the following two essays Habermas draws on the work of Kohlberg and others to develop a distinctive account of moral consciousness and normative structures Toward a Reconstruction of historical Materialism takes these issues further offering a wide ranging reconstruction of Marx's historical materialism understood as a theory of social evolution The final essay focuses on the question of legitimacy and on the legitimation problems faced by modern states This book is essential reading for anyone concerned with the key questions of social and political theory today *Althusser* Gregory Elliott, 2006 An expanded and updated version of the fullest account in English of the philosophico political career of Louis Althusser and the fate of his controversial reconstruction of Marxism containing a substantial new postscript and a comprehensive bibliography

Historical Materialism and the Economics of Karl Marx Benedetto Croce, 1914 It is often said that it is the business of philosophy to examine and criticise the assumptions of the sciences and philosophy claims that in this work it is not an unnecessary meddler stepping in where it is not wanted For time and again for want of philosophical criticism the sciences have overstepped their bounds and produced confusion and contradiction Recent Interpretations of Karl Marx's Social Theory Richard Ruy-Chyi Hwang, Ruiqi Huang, 2006 This book seeks on the one hand to examine Habermas work on the reconstruction of historical materialism and Cohen's and Elster's analyses of the topic on the other to compare contrast and criticize their work They respond to the political and theoretical crises of contemporary Marxism Habermas response is to overcome economism and to stress normative structure and communication Cohen's reaction is to go back to the orthodoxy of Marxism with analytical philosophy and Elster reacts by re-analyzing Marxian basic concepts with the analytical tools of the modern social sciences In short they all acknowledge the continual relevance of Marxism but also state that Marxism in general or historical materialism in particular needs revision in various ways **Perspectives on Habermas** Lewis Edwin Hahn, 2000 This collection of writings by eminent philosophers explores the controversial career of Jürgen Habermas whose adherence to the Enlightenment ideals of rationality humanism and respect for discourse has set him apart from most postmodernist thinkers **A Japanese Reconstruction Of Marxist Theory** Robert Albritton, 1986-04-02 **The Phenomenological Marxist Critique of Marxist Scientism and the Contemporary Sciences** Richard Warwick James Randell, 1986 **The Plebs**, 1915 **Theodor W. Adorno** Gerard Delanty, 2004-05-25 Theodor W Adorno was one of the

towering intellectuals of the twentieth century His friendship with Walter Benjamin produced some of the most moving insightful correspondence on the origins and objects of the Frankfurt School of Critical Theory This collection distils the best from published assessments and responses to Adorno s oeuvre ANZJS ,1987 *The Failure of Marxism* David Campbell,1996 A study on the concept of inversion in Marx s critique of capitalism This volume includes references to Hegel on the unity of subject and object Smith and Ricardo on the falling rate of profit and the concepts of capitalism and socialism
