Harold Laski and American Liberalism Gary Best,2017-07-05 For nearly three decades the English political scientist Harold Laski was the gray eminence of American liberalism and its most influential Marxist public intellectual As a fervent proponent of the New Deal in the 1930s much of Laski s success stemmed from the fact that he offered answers when so many Americans had only questions By the postwar years however his reputation was in decline and his influence left the Democratic Party vulnerable in the1948 elections In *Harold Laski and American Liberalism* Gary Dean Best traces the trajectory of Laski s American career and accounts for its ultimate failure American politics and society were central to Laski s intellectual enterprise As Best shows probably no one residing in America has published as many words critical of the United States as did this Englishman Virtually no aspect of American life went unscathed and yet at the root of every attack was American capitalism the businessman those with property who in Laski s view were the source of all the perversion of American life The 1930s was a period of ferment among America s intellectuals By the 1940s it was only Laski who was bewildered at the failure of his diagnoses and the rejection of his prescriptions even by those who had been captivated by him in the previous decade By the time he died in 1950 his earlier pronouncements seemed wide of the mark and the increased stridency and shrillness produced by his disappointment had begun to bore even many who had been devoted to him in earlier years As this volume shows the real tragedy for Laski was that he allowed his intellect to be captured and held captive by the Marxian dialectic denying himself the use of his own reason despite that dialectic s repeated failures *Harold Laski and American Liberalism* will be of interest to intellectual historians political scientists and American studies specialists

Cvltvre and Restraint Hugh Black,1901 **The Radical Review** ,1883 **Religion, Conflict, and Democracy in Modern Africa** Samuel K. Elolia,2012-03-02 Spanning various regions of Sub Saharan Africa the authors of this volume come together to explore the complex relationship between religion and democracy in contemporary Africa As a result of the end of the Cold War and the fall of the Soviet Union many African countries have come to the realization however partial that political and social change is inevitable in spite of government heavy handedness and threats It has also become evident that no political system that refuses to permit freedom of political expression and alternative systems of governance could continue to be sustained It is in precisely this political climate that religious institutions have collaborated with other elements of civil society to call for political reforms with the church often becoming the prominent voice against oppressive governments in countries such as Kenya and South Africa It is the purpose of this book to assess how religion shapes political

issues and to what extent religious forces influence the civil society By acknowledging the role of the civil society the essays recognize the resilience that comes out of Africa even when the sociopolitical situation seems unbearable New Masses ,1926 Europe's World Knud Erik Jørgensen,Tonny Brems Knudsen,Laura Landorff,2025-05-27 The EU s international environment is increasingly characterized by power politics great power rivalry ideological contestation and war This has challenged the liberal internationalist identity that has been at the heart of the EU since its birth This book examines how the EU has responded to these new realities It analyses the introduction of a flurry of concepts including European sovereignty strategic autonomy civilization responsibility and strategic compass and asks whether these signal a reconsideration of foreign policy objectives a new strategic orientation or possibly a paradigm shift The book develops a theoretical framework on policy paradigms worldviews grand strategy strategic narratives and the drivers of institutional change followed by chapters on the anti liberal challenge the evolution of the EU framework of ideas the search for grand strategy and strategic autonomy the response to Russian aggression and imperial thinking and continuity and change in EU unity working groups green leadership and strategic communication **Equals One** ,1965 **History Teacher's Magazine** ,1909 **Official Journal of the Brotherhood of Painters, Decorators and Paperhangers of America** ,1905 *Unity* ,1924 **The Living Age** ,1926 **Current Opinion** Edward Jewitt Wheeler, Frank Crane,1922 *Super Memory* Shakuntala Devi,2011-06-30 This is one of those rare books that can help all of us with something that is both troublesome and worrisome our memory It does this with ease not by attempting to teach some exhausting rote memory techniques but in 12 easy and effortlessly smooth steps Shakuntala Devi s down to earth writing and encouraging step by step approach puts super memory in reach of everyone As she says Take my word You can start applying my memory enhancing techniques immediately right now Before you will realize applying my methods and strategies will become your second nature Shakuntala Devi has been honing and teaching her memory improvement techniques for more than 40 years Super Memory is the result of her life s work specially tailored to our needs as we age and encompassing all of the many ways we can use a better memory every day **The Contemporary Review** ,1899 Our Cultural Heritage and Its Modern Orientation Swami Ranganathananda,1983 Transcript of a 1982 lecture by a monastic of the Ramakrishna order
