A Rhetoric Case

Alan G. Gross, William M. Keith

A Rhetoric Case:

A Rhetoric Case Book Francis Xavier Connolly, Gerald Henry Levin, 1969 **Making the Case** Kathryn M. Olson, Michael William Pfau, Benjamin Ponder, Kirt H. Wilson, 2012-11-01 In an era when the value of the humanities and qualitative inquiry has been questioned in academia and beyond *Making the Case* is an engaging and timely collection that brings together a veritable who's who of public address scholars to illustrate the power of case based scholarly argument and to demonstrate how critical inquiry into a specific moment speaks to general contexts and theories Providing both a theoretical framework and a wealth of historically situated texts *Making the Case* spans from Homeric Greece to twenty first century America The authors examine the dynamic interplay of texts and their concomitant rhetorical situations by drawing on a number of case studies including controversial constitutional arguments put forward by activists and presidents in the nineteenth century inventive economic pivots by Franklin Roosevelt and Alan Greenspan and the rhetorical trajectory and method of Barack Obama

Heuristic Rhetoric Gábor Tahin, 2022-11-30 This book introduces a novel approach to the analysis and practice of persuasive speaking and writing heuristic rhetoric The new method has evolved to fulfil the need at universities government departments political organisations business enterprises and other public institutions for a modern practical alternative to classical rhetoric which is in the author's view no longer capable of giving a complete description of contemporary predominantly mediated forms of public persuasive discourse whilst other competing disciplines such as critical discourse analysis or strategic manoeuvring have not yet produced a set of tools which have the comprehensive nature and practical orientation of Classical Greek and Roman rhetorical system The book expounds heuristic rhetoric as an inter disciplinary method to develop advanced skills of critical and strategic reasoning Applying a novel set of principles for the strategic analysis of persuasive reasoning in complex rhetorical situations the method emphasizes preparing and continuously adjusting argumentation according to the demands of unpredictable circumstances

Rhetorical Hermeneutics Alan G. Gross, William M. Keith, 1997-01-01 Examines the nature of rhetorical theory and criticism the rhetoric of science and the impact of poststructuralism and postmodernism on contemporary accounts of rhetoric

Still Life with Rhetoric Laurie E. Gries, 2015-03-05 In *Still Life with Rhetoric* Laurie Gries forges connections among new materialism actor network theory and rhetoric to explore how images become rhetorically active in a digitally networked global environment Rather than study how an already materialized visual text functions within a specific context Gries investigates how images often circulate and transform across media genre and location at viral rates A four part case study of Shepard Fairey's now iconic Obama Hope image elucidates how images reassemble collective life as they actualize in different versions enter into various relations and spark a firework of activity across the globe While intent on tracking the rhetorical life of a single multiple image *Still Life with Rhetoric* is most concerned with studying rhetoric in motion To account for an image's widespread circulation and emergent activities Gries introduces iconographic tracking a digital

research method for tracing an image's divergent rhetorical becomings Yet Gries also articulates a dynamic set of theoretical principles for studying rhetoric as a distributed generative and unforeseeable event that is applicable beyond the study of visual rhetoric With an eye toward futurity the strands of time beyond a thing's initial moment of production and delivery Still Life with Rhetoric intends to be taken up by those interested in visual rhetoric research methods and theory

Modern Rhetoric in Culture, Arts, and Media Joachim Knape, 2012-12-19 The goal of this book is to formulate a modern theoretical approach for rhetorical studies in a variety of disciplines in the humanities media research and other cultural studies The discipline of rhetoric originally concerned itself with linguistic forms of communication and its basic theory was developed with such cases in mind With respect to this ancient tradition there are numerous books that provide a historical overview of the field There is also a wide array of introductory works and research contributions that deal with the practice of political rhetoric On the other hand only a few 20th century academics have attempted to theoretically rehabilitate rhetoric after its decline as an academic discipline in Europe in the 18th and 19th centuries and to give rhetorical theory a modern new and further reaching perspective Two notable examples have been Kenneth Burke and Brian Vickers The book begins with the assumption that rhetoric is not merely limited to linguistic action but rather is present everywhere in the communicative world Against this background this work develops a modern theory of rhetoric and demonstrates in twelve chapters how methodical rhetorical analysis can be done in selected practical fields of application Literature Music Images and Film

Rhetoric and Discourse in Supreme Court Oral Arguments Ryan Malphurs, 2013-01-04 While legal scholars psychologists and political scientists commonly voice their skepticism over the influence oral arguments have on the Court's voting pattern this book offers a contrarian position focused on close scrutiny of the justices communication within oral arguments Malphurs examines the rhetoric discourse and subsequent decision making within the oral arguments for significant Supreme Court cases visiting their potential power and danger and revealing the rich dynamic nature of the justices interactions among themselves and the advocates In addition to offering advancements in scholars understanding of oral arguments this study introduces Sensemaking as an alternative to rational decision making in Supreme Court arguments suggesting a new model of judicial decision making to account for the communication within oral arguments that underscores a glaring irony surrounding the bulk of related research the willingness of scholars to criticize oral arguments but their unwillingness to study this communication With the growing accessibility of the Court's oral arguments and the inevitable introduction of television cameras in the courtroom this book offers new theoretical and methodological perspectives at a time when scholars across the fields of communication law psychology and political science will direct even greater attention and scrutiny toward the Supreme Court
