Belliotti,1995 Outlining the unwritten but deeply ingrained system of moral codes that Italian immigrants brought to America Belliotti examines that system in relation to moral theorists who argue we owe the most to people close to us and those who contend we must attach no special weight to our own interests when determining proper moral action He also investigates philosophical historical sociological and political aspects of government authority examines conflicting images of Italian immigrant women and analyzes war and pacifism **A Search for Identity** Gerald B. Bubis, *Linguistic Identity Matching* Bertrand Lisbach,Victoria Meyer,2013-06-05 Regulation risk awareness and technological advances are more and more drawing identity search requirements into business security and data management processes Following years of struggling with computational techniques the new linguistic identity matching approach finally offers an appropriate way for such processes to balance the risk of missing a personal match with the costs of overmatching The new paradigm for identity searches focuses on understanding the influences that languages writing systems and cultural conventions have on person

Andom, 1902 *The Lutheran Witness*, 1963 **Collective Search for Identity** Orrin Edgar Klapp, 1969 From the Preface This book is about identity seeking movements of modern society It deals with such things as fashions fads poses ritual cultic movements recreation heroes and celebrities and crusades from the point of view of what they tell about the identity search of a mass society My view briefly is that a collective identity search is symptomatic of the fact that some modern social systems deprive people of psychological payoffs the lack of which expressed by terms such as alienation meaninglessness identity problem motivates a mass groping for activities and symbols with which to restore or find new identity People grope because they do not really know what is wrong especially when there is physical prosperity yet a sense of being cheated When mass movements become concerned with identity they develop certain characteristics such as ego screaming concern with costume and self ornamentation style rebellion concern with emotional gestures rather than practical effects adulation of heroes cultism and the like with which I shall deal Such signs show that ordinary economic and political solutions are not what is wanted People feel the futility and irrelevance of such measures yet do not know quite what else to do **The Case for Gay Rights** David A. J. Richards, 2005 As Americans wrestle with debates over traditional values defense of marriage and gay rights reason often seems to take a back seat to emotion In response legal scholar Richards reflects upon the constitutional and democratic principles relating to privacy intimate life free speech tolerance and conscience that underpin these often heated debates The distillation of Richards s thirty year advocacy for the rights of gays and lesbians his book provides a reflective treatise on basic human rights that touch all of our lives He places in context two key Supreme Court cases the 1986 Bowers v Hardwick decision and the 2003 Lawrence v Texas decision which overturned it Drawing upon his own experiences as a gay man Richards interweaves personal observations with philosophical political judicial and psychological insights to make a case that gays should be entitled to the same rights and protections that every American enjoys From publisher description **Cayo V.**
