Vision and Blindness in Film Dago Schelin, 2019-02-13 In order to understand vision we have to look into concepts of blindness both diegetically in typical film

characters and in the representation of sight or lack thereof A critical historical investigation into theories of vision shows that the way we understand visuality today scientifically and culturally is very different from pre modern notions and practices In this book Dago Schelin questions categories such as active and passive vision tactile visuality as well as blind vision and discusses them alongside a variety of movies that deal with vision and blindness Is there a connection between the filmmaker s gaze and an older pre Keplerian ontology of vision What is the role of sound in vision Are our eyes mere camcorders or might they be projectors These and other questions comprise the fascinating journey on which this study embarks
