Blindness And Autobiography:

Blindness and Autobiography Fedwa Malti-Douglas, 2014-07-14 The three volume life story of the Egyptian intellectual Tahah Husayn 1889 1973 is a landmark in modern autobiography in Arabic letters and in the literature of blindness This justly celebrated text however has never been subjected to the sustained literary analysis here presented by Fedwa Malti Douglas Born into a modest family and blinded in childhood Husayn nevertheless conquered first his own and then a European educational system to become one of his country s leading modernizers Professor Malti Douglas shows that the personal social and literary reality of the hero s blindness gives the autobiography its unity and force *Blindness and Autobiography* is not only a rich explication of al Ayyam but a pioneering study of the interaction between a severe physical handicap and the autobiographical process It adds a new perspective to the contemporary discussion of the cultural uses of the body The first part of the book explores blindness and society from the evolving conflict between personal and social conceptions of the handicap to the way blindness redefines the more familiar issues of traditional versus modern East versus West The second section examines the relationship of blindness to the autobiography s ecriture rhetoric and narration Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Who Lost? the Autobiography of a Blind Man with Great Vision. Dale Sheldon, 2013-09 Try if you can to imagine the utter horror that filled a young mother when her four year old came running into the house with blood streaming down his cheeks and then to realize the blood was coming from where his eye had been moments before That young girl was my dear mother I was that child Life begins at birth however I feel mine really started in a vacant lot in Conrad Montana one month before my fourth birthday With wit and candor Sheldon draws us into his diverse life Blinded at the age of four a married high school dropout at 17 he plunged into any job he could get to support his family Every endeavor benefited by his determination to be the best that he could be He had his own auto repair shop for thirty years was an avid hunter and fisherman served for twelve years as a county commissioner became a Russian interpreter and expressed himself as a sculptor and woodworker Parents will be emboldened by his message to encourage rather than shield a child facing any type of handicap As the father of a developmentally challenged daughter he was compelled to help others confronted by the same type of situation as a board member on the Developmentally Disabled Council Anyone teetering on the brink of indecision about the next step to take in life will be motivated by his just do it philosophy Whether it was owning his own trucking company or leaving rural Montana to work in Washington D C he pursued every possibility for success If you just yearn for a good belly laugh enjoy his adventures while hunting moose in

north central Montana driving a snow mobile at high speeds up a mountain or learning to water ski at the family reunion with all nieces and nephews yelling from shore You can do it Uncle Dale All of Sheldon s experiences and achievements are proof that blindness can be a stepping stone rather than a road block

The Conquest of Blindness Henry Randolph

Latimer,2017-11-19 Excerpt from The Conquest of Blindness An Autobiographical Review of the Life and Work of Henry Randolph Latimer A careful review of my own knowledge and experience led to the conclusion that almost all the available data for such an undertaking would be best presented under the comprehensive caption The Conquest of Blindness Despite my lifelong aversion to the general use Of the first personal pronoun it has seemed necessary to cast the work in the autobiographical form The term Conquest of Blindness is taken to include any preventive remedial educational rehabilitating or relief phase of work pertaining to the handicap Of blindness The primary aim of the volume is to lift work for the conquest of blindness out of the miasma of alms and asylums into the more wholesome atmosphere of social adjustment Other aims Of the volume are to serve as a supplementary text for the use of the profession and as an incentive to the chance reader to delve more deeply into the subject and to present as modestly as may be the autobiography Of one blind person who has contributed in small measure toward the conquest of blindness About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Going Blind Mara

Faulkner, OSB,2012-03-15 Finalist for the 2010 Minnesota Book Award presented by the Friends of the Saint Paul Public Library Mara Faulkner grew up in a family shaped by Irish ancestry a close to the bone existence in rural North Dakota and the secret of her father s blindness along with the silence and shame surrounding it Dennis Faulkner had retinitis pigmentosa a genetic disease that gradually blinded him and one that may blind many members of his family including the author Moving and insightful Going Blind explores blindness in its many permutations within the context of the author s family more broadly as a disability marked by misconceptions and as a widely used cultural metaphor Mara Faulkner delicately weaves her family s story into an analysis of the roots and ramifications of the various metaphorical meanings of blindness touching on the Catholic Church of the 1940s and 1950s Japanese internment the Germans from Russia who dominated her hometown and the experiences of Native people in North Dakota Neither sentimental nor dispassionate the author asks whether it s possible to find gifts when sight is lost

Planet of the Blind Stephen Kuusisto,2005 This is an autobiography about coming to

terms with near blindness of a lonely childhood and a struggle through college The author has managed to translate his

Blindness and Writing Heather Tilley, 2018 In this innovative and important study Heather Tilley examines the huge shifts that took place in the experience and conceptualisation of blindness during the nineteenth century and demonstrates how new writing technologies for blind people had transformative effects on literary culture Considering the ways in which visually impaired people used textual means to shape their own identities the book argues that blindness was also a significant trope through which writers reflected on the act of crafting literary form Supported by an illuminating range of archival material including unpublished letters from Wordsworth's circle early ophthalmologic texts embossed books and autobiographies this is a rich account of blind people's experience and reveals the close and often surprising personal engagement that canonical writers had with visual impairment Drawing on the insights of disability studies and cultural phenomenology Tilley highlights the importance of attending to embodied experience in the production and consumption of texts

Eye Opener Mahantesh G Kivadasannavar, Satish Viswanathan, 2020-08-22 When life deals you an unkind cut how you respond to it offers a window to the character you possess Blindness at birth can be particularly debilitating because you are deprived of self dependency However if you learn to not just take the disability in your stride but also use it as a motivation to scale the ladder of life then sky is the limit As GK Mahantesh has amply illustrated Presented with the easier option of falling back on family support and coasting through life Mahantesh opted for the more arduous path of making a name for himself and offering inspiration as well as financial independence to thousands of others Fusing his love for cricket with an innate desire to look beyond himself he has carved a niche both through his illustrious association with blind cricket and the Samarathanam Trust *Eye Opener* charts Mahantesh's fascinating undulating journey from the outpost of Belagavi to the hustle and bustle of constant international travel
