Since the middle of the nineteenth century Confucianism and Confucian China entered American literature through the efforts of three generations of leading writers As a rich school of thought that had flourished for more than two thousand years in China Confucianism presented itself as a philosophy a political theory and an aesthetics Its extensive content and wide application appealed to American intellectuals who turned it into an endorsement for their own revolutionary proposals in various fields A selective account of the discourse about Confucianism and Confucian China in American literature from the mid nineteenth to the mid twentieth century this thesis explores contributions of Henry David Thoreau Ernest Francisco Fenollosa and Ezra Weston Loomis Pound Playing out in a chronological sequence it centers on a common theme in these writers works the interpretation and adaptation of the Confucian conception of language Grounding my analysis in close reading I discuss both how an eagerness to connect the symbolic realm with the material world characterizes their approaches to Confucianism and how the Confucian view on language is integrated into their literary practices Furthermore I propose an explanation for why these American writers while consciously invested in the establishment of a new national literature all turned to an ancient foreign culture in searching for inspiration

unresolved questions surrounding the dates of birth and passing of Omar Khayyam Critically reexamining the manner in which Omar Khayyam's birth horoscope as reported in Zahiruddin Abolhassan Beyhaqi's Tatemmat Sewan al Hekmat Supplement to the Chest of Wisdom was used by Swami Govinda Tritha in his The Nectar of Grace Omar Khayyam's Life and Works 1941 to determine Khayyam's birth date Tamdgidi uncovers a number of serious internal inconsistencies and factual inaccuracies that prevented Tritha and since then other scholars more or less taking for granted his results from arriving at a reliable date for Khayyam's birth hurling Khayyami studies into decades of confusion regarding Khayyam's life and works Tamdgidi then shares in the book the detailed account of his own discovery of Khayyam's true date of birth for the first time a finding that eluded Khayyami studies for centuries and is bound to revolutionize the studies for decades to come Tamdgidi then turns his attention to the task of definitively establishing the true date of passing of Omar Khayyam Conducting an in depth superposed analysis of Beyhaqi's Tatemmat Sewan el Hekmat Supplement to the Chest of Wisdom Abdorrahman Khazeni's Mizan ol Hekmat Balance of Wisdom Nezami Arouzi's Chahar Maqaleh Four Discourses and Yar Ahmad Rashidi Tabrizi's Tarabkhaneh House of Joy amid other relevant texts he succeeds in firmly reconfirming and further discovering in a textually reliable way not only the year the season the month and the day but even the most likely time of day at which the poet mathematician astronomer and calendar reformer died as a solar centenarian completing his 102nd solar year age Strange is that these discoveries are made just in time as we approach the first solar millennium of Omar Khayyam's birth date on June 10 1021 at sunrise of Neyshabour Iran and the ninth solar centennial of his passing on June 10 1123 on the eve also of his birthday closing the circle of his life's coming and going
