**The Land of the Blue Flower** Frances Hodgson Burnett,2017-12-31 The Land of the Blue Flower was not called by that name until the tall strong beautiful King Amor came down from his castle on the mountain crag and began to reign Before that time it was called King Mordreth's Land and as the first King Mordreth had been a fierce and cruel king this seemed a gloomy name Goodreads

**The Molecular Biology and Biotechnology of Flowering** Brian R. Jordan,2006-01-01 This is the second edition of the book first published in 1993 with a title of The Molecular Biology of Flowering It expands and updates the current knowledge of the molecular mechanisms of flowering and shows how molecular biology and the opportunities of biotechnology have made major progress when applied to flowering It includes new chapters and others substantially revised and updated Topics such as the evolution of flowers floral senescence and apomixis are included in this new edition The 13 chapters of this book are presented in the following sections external and internal regulation of flowering 3 chapters floral development 6 chapters and fertilization and gametophyte development 4 chapters The book is intended for research workers and advanced students in plant molecular biology and developmental biology from both pure and applied agricultural and horticultural perspectives

**In Praise of the Earth** Byung-Chul Han,2025-09-03 The earth is not a dead mute landscape but an eloquent living being Sometimes it just takes a spade a packet of seeds and a pair of sturdy boots to realize it The philosopher Byung Chul Han spent three springs summers autumns and winters in his secret garden in Berlin devoting himself to daily gardening in all weathers For Han gardening is a form of silent meditation a lingering in stillness It gives you a different sense of time Every plant has its own time that is specific to it and the garden is a space in which these multiple temporalities overlap and cut across one another The longer he worked in the garden the more respect he developed for the earth and for its enchanting beauty Gardening taught him what care for others means Each organism has its own consciousness of time passing each organism lives in its own micro universe Step by step Han receded from himself and the world moving closer and closer to an exuberant divine nature which we are increasingly in danger of losing Through this rich meditation on plants soil gardening and time Han unfolds a way of relating to and tending the earth that is in sharp contrast to the brutal incessant exploitation of our planet that we see all around us today
