## **Blue Hour The:**

**Blue Hour** Carolyn Forché, 2010-08-24 Blue Hour is an elusive book because it is ever in pursuit of what the German poet Novalis called the lost presence beyond appearance The longest poem On Earth is a transcription of mind passing from life into death in the form of an abecedary modeled on ancient gnostic hymns Other poems in the book especially Nocturne and Blue Hour are lyric recoveries of the act of remembering though the objects of memory seem to us vivid and irretrievable the rage to summon and cling at once fierce and distracted The voice we hear in Blue Hour is a voice both very young and very old It belongs to someone who has seen everything and who strives imperfectly desperately to be equal to what she has seen The hunger to know is matched here by a desire to be new totally without cynicism open to the shocks of experience as if perpetually for the first time though unillusioned wise beyond any possible taint of a false or assumed innocence Robert Boyers [The Blue Hour](#) T. Working from the premise that Plath is a highly visible cultural figure this book explores why her readers become so attached to her Why does she have such a large and devoted following What is it about her that attracts people and once they are drawn in how does this fandom manifest itself This book is based on primary research carried out by the author who has collected stories and accounts from readers of Plath and explores key areas such as the first encounter with Plath ways in which fans feel they double with her pilgrimages that they make to places where she lived and worked how they interact with her images and how they respond to objects owned by Plath This study is unique and there is no other book that deals with this subject As such *The Haunted Reader and Sylvia Plath* offers a fascinating and original approach not only to Plath scholarship but to the increasing body of literature on fandom studies Illustrations 13 black and white photographs **The Blue Hour** Bobbie Ogletree,2024-05-22 *Boundless: An Anthology of Prose* David G. been said many times that photography is painting with light or that photography is all about light For Jeanine Leech the idea of painting with light is a passion She uses it as a brush for color texture and dimension to create dynamic and expressive images In this book Leech details her techniques for finding and using the best light to create breathtaking landscape images To get that special moment you are often chasing the light In landscape photography there are moments of defining light It can be a single moment that may only last a second when the light is just perfect These moments don't happen every day but when they do one frame can tell the story with more visual impact than all the others The ability to improvise to stop and get the light when these moments occur randomly is the difference between producing a standard photo and something that truly stand out This book provides the basic principles of photography necessary for capturing this magic successfully Starting with a rundown of the equipment that Leech uses and explaining the core concepts of photography the book proceeds to detail shooting at different times of day From the first light at dawn through midday and onto dusk Leech provides stunning examples of how each type of light can be used Each photo in the book is accompanied by the camera settings used to capture it True magic light is rare It happens in a fleeting moment not to be repeated again lasting only a few minutes or seconds Its quality is so unique that it changes the color appearance and ultimately the mood of the subjects it falls upon Part three of the book focuses on the different types of landscapes First weather is covered A photo shoot in the Smoky Mountains shows how attention to detail and setting can make the shot The light and the weather change in mere seconds As Leech points out knowing the basics of photography and how to work your equipment quickly is essential Each of the stunning photos in the book is a testament to this After that Leech discusses how she chooses different landscapes Intimate landscapes can be found anywhere Sometimes making artistic choices like only focusing on a small portion of a setting provides an image with greater impact Finally the book covers the use of polarizer's various filters and multiple digital darkroom techniques
