Blue Sense Psychic Detectives And Crime:

The Blue Sense Arthur Lyons, Marcello Truzzi, 1991 Discusses the assistance of psychics in the police investigations of murders kidnappings and missing persons citing case histories of successful psychics *PSYCHIC CRIMINOLOGY* Whitney S. Hibbard, Raymond W. Worring, Richard Brennan, 2002-01-01 Practical and authoritative this book is a comprehensive manual of operations for using psychics in criminal investigations The authors base the material on several decades of personal experience and on other first person accounts from law enforcement personnel After establishing the need for such an operations manual the text presents a short history of psychic criminology outlines the different types of psychic ability pertinent to the investigator then reviews the evidence and theories for paranormal phenomena It then details the identification recruitment testing and use of psychics with close coverage afforded methods and procedures for efficient and successful investigative work with psychics The important role of extrasensory perception in the everyday life of the investigator also is examined Throughout the book the authors intersperse summaries of actual cases involving psychics to illustrate and support the topics under discussion Following the text is a sample Intuitive Investigation Report Form useful in psychic criminology a glossary of parapsychological terms and a bibliography of pertinent readings This second edition has been edited and rewritten extensively with much new and significant material added including a section on remote viewing a new chapter of documented case histories and a cogent critique of the critics of paranormal functioning The primary purpose of this second edition is the same as the first to promote the professional use of psychics as investigative aides in criminal investigations

A Survey of the Forensic Sciences Randall Skelton, 2011-01-14 Exploring the broad spectrum of the forensic sciences practiced both inside and outside of a crime lab this text investigates forensic sciences that are used both in criminal and civil contexts along with non traditional and new applications such as occupational fraud wildlife protection and homeland security The approach is unifying in that it seeks to explain the underlying theoretical and practical concepts that unite all forensic science as well as the individual challenges of each of the forensic sciences The scientific concepts that underly the forensic sciences are explained in a manner that is understandable by readers without a science background
