A Place Like No Other Anthony R. E. Sinclair, 2025-08-19 From famed zoologist Anthony Sinclair an account of his decades long quest to understand one of Earth's most spectacular ecosystems With its rich biodiversity astounding wildlife and breathtaking animal migrations Serengeti is like no other ecosystem on the planet *A Place like No Other* is Anthony Sinclair's firsthand account of how he and other scientists discovered the biological principles that regulate life in Serengeti and how they rule all of the natural world When Sinclair first began studying this spectacular ecosystem in 1965 a host of questions confronted him What environmental features make its annual migration possible What determines the size of animal populations and the stunning diversity of species What factors enable Serengeti to endure over time In the five decades that followed Sinclair and others sought answers What they learned is that seven principles of regulation govern all natural processes in the Serengeti ecosystem Sinclair shows how these principles can help us to understand and overcome the challenges facing Serengeti today and how they can be used to repair damaged habitats throughout the world Blending vivid storytelling with invaluable scientific insights from Sinclair's pioneering fieldwork in Africa *A Place like No Other* reveals how Serengeti holds timely lessons for the restoration and conservation of our vital ecosystems

A Place Like Home W. David Wills, 2021-11-07 The late David Wills spent a lifetime in the service of the so called delinquent the misfit the maladjusted He was the first Englishman to train as a psychiatric social worker and was well known for his books *The Hawkspur Experiment* *The Barns Experiment* etc Originally published in 1970 this book describes another experiment with a hostel for boys leaving schools for maladjusted children and lacking any settled home from which to enter the community It demonstrates once again David Wills's conviction that the offender wants to be good and will be helped by affection rather than by punishment Yet it is obvious that the work was full of stress and that only people with some of the attributes of archangels could respond to the boys needs and remain in control of the situation The book demonstrates the extent of deprivation suffered by such young people and that no ordinary hostels or lodgings will do if they are to be set upon a less turbulent course of life leading to truly adult independence It added greatly to our understanding of the personalities experience of life and needs of maladjusted boys in their teens at the time although the lessons drawn from it were disturbing in relation both to prevention and treatment The penetration of David Wills's assessment is beyond doubt and as Dame Eileen Younghusband concludes in her Foreword his book will give a great deal to those trying in various capacities to help boys and girls who otherwise would grow into adulthood permanently handicapped emotionally and socially This book is a re issue originally published in 1970 The language used is a reflection of its era and no offence is meant by the Publishers to any reader by this re publication
