Introduction to the Social Economy Peter Bloom, Rok Kranjc, 2025-08-18
Mainstream economic models prioritize growth individualism and efficient allocation driven by self interest However across history groups marginalized or disillusioned by the status quo have imagined and constructed alternative economic systems the social economy referring to organizations and enterprises oriented toward social goals and community benefit rather than profit maximization and centered on different values like cooperation sustainability democracy and community benefit In an accessible and unique manner *Introduction to the Social Economy* explores the core topics that help to conceptually understand and practically implement a social economy The book presents a wide range of conceptions of alternative economic theories and models within the social economy ranging from the solidarity economy to the commons to feminist and degrowth perspectives It provides a standard set of knowledge and cases that can be drawn upon in a diverse set of disciplines and cultural contexts Furthermore it does so at multiple levels from macro economic theories and policies to organisational design and community based transformation It offers students an important set of understandings and tools for innovatively addressing contemporary grand challenges such as economic inequality and climate change *Introduction to the Social Economy* will be of immense benefit to scholars and students striving to study advocate and organize economic activities to better serve human and ecological wellbeing

The Community of Rights Alan Gewirth, 1996 *The Community of Rights* provides a detailed explication of the fundamental rights of agency as derived from a single rationally justified principle of morality and develops the contents of economic and social rights as a basic part of human rights A critical alternative to both liberal and communitarian views this authoritative work will command the attention of anyone engaged in the debate over social and economic justice

EC Regulation of Corporate Governance Andrew Johnston, 2009-12-03 Uses economic and reflexive governance theories to demonstrate how EC law achieves the necessary balance between integration and regulatory diversity

Who Belongs Stephen M. Feldman, 2026-01-20 Examines how Roberts Court decisions have reshaped *We the People* to favor a narrow vision of belonging rooted in white Christian nationalism and minority rule *Who belongs to We the People* Are the People exclusive inegalitarian and hierarchical or inclusive and egalitarian For much of American history an exclusionary and inegalitarian republican democracy predominated but in the 1930s political forces lifted an egalitarian and participatory pluralist democracy to ascendance Although a conservative Supreme Court initially resisted this change the Court acquiesced in 1937 and then subsequently deepened the nation s commitment to pluralist democracy by invigorating constitutional protections for individual rights religious freedom free expression and equal protection Protection of individual rights facilitated the acceptance of diverse

values and the expression of those values in the pluralist democratic arena Disgruntled with these constitutional developments conservatives eventually denounced the 1937 transition and urged the Court to restore the original Constitution In Who Belongs Stephen M Feldman assesses how the conservative justices of the Roberts Court seem intent on undoing the 1937 constitutional transformation Yet Feldman reveals they are not returning the nation to pre 1937 republican democratic constitutional principles Instead the justices reinterpret the post 1937 rights of religious freedom free speech and equal protection to privilege a narrow segment of the American people white Christian heterosexual men The Roberts Court is limiting who fully belongs to We the People narrowing the rights of non Christians people of color women and LGBTQ individuals Ultimately the conservative justices are interpreting individuals rights to serve minority rule in harmony with the political agenda of white Christian nationalism Providing a powerful assessment of white Christian nationalism in American constitutionalism Who Belongs reminds us that a healthy democracy depends on not only what rights exist but also who enjoys them

Seeing Like a Firm Associate Professor of Social and Political Philosophy European School of Social and Political Sciences (Espol) Pierre-Yves Néron, Pierre-Yves Néron, 2024 Business corporations are political entities and need to be considered as such Seeing Like a Firm invites readers to do just that by providing a political theory of the business firm It argues that firms see in a conservative way and embrace a conservatism of commerce that requires socioeconomic inequality By offering a new interpretation of conservatism based not on preserving the existing system but on an aesthetics of inequality Néron provides an alternative way to think about the main challenges that proponents of equality face

with the work of Gordon Tullock and James M Buchanan Nobel Laureate in 1986 It has become established as a major field of scholarship fueled in part by the re emergence of democracy in Eastern Europe and in Latin America following decades of autocratic government The book focuses attention on a range of approaches to the subject that have emerged from differing backgrounds of political philosophy The selection of papers and the introductory essay both emphasize the importance of institutional relevance and recognize the constraints placed upon constitutional theorizing by the ever present forces of the political market place
