Revolutions Donald Sassoon, 2025-11-18 Revolutions is a sparkling account of political upheaval and the power of history We think of revolutions in terms of fleeting events such as the Fall of the Bastille or the Storming of the Winter Palace In reality they take decades to burn out if they ever do One of our great historians Donald Sassoon takes the long view of some of the most celebrated upheavals the English Civil War which killed a king the American War of Independence which ejected the British but allowed slavery to persist the French Revolution which produced the Rights of Man and years of instability the national revolutions that unified Italy and Germany and the Russian and Chinese revolutions which transformed the twentieth century Revolutions adroitly compares these historical juggernauts to the many rebellions coups and tumults that time forgot It is a history rich in irony and surprises Yankee Doodle Dandy was first sung by English troopers to make fun of dishevelled American colonials The Long March of retreating Chinese Communists assumed a mythical dimension on a par with Washington crossing the Delaware As Sassoon shows in this tour de force account revolutions usually catch revolutionaries themselves by surprise and the consequences are difficult to fathom Revolutions will change how you think about the transformative moments in history both big and small Unique and encyclopaedic a monument to streetwise and cosmopolitan scholarship Guardian for The Culture of the Europeans Sometimes playful sometimes caustic but always to the point The doyen of comparative historians Ferdinand Mount Times Literary Supplement for The Anxious Triumph
