Blitz George Rodger,1990-07 Features 30 photographs from the archives of Magnum co founder and photographer George Rodger who covered the Blitz for Life magazine The collection complements The Blitz paperback **The Blitz** ,1994

George Rodger Carole Naggar,2003-10-01 He was a trailblazing twentieth century British photojournalist but George Rodger lived in the adventurous tradition of nineteenth century explorers Cofounding Magnum Photos in 1947 with Henri Cartier Bresson and Robert Capa the modest Rodger was eclipsed by his partners until now Rodger s Indiana Jones style escapades are legendary and worth the telling He once covered over 75 000 miles of old Africa in a Land Rover He even survived a white rhino charge He went on to become a key photographer of African tribal life During World War II he covered sixty one countries for Life magazine He was chased through three hundred miles of Burmese jungles by both the Japanese army and a tribe of headhunters And he was the first to record the liberation of the Bergen Belsen concentration camp He quit photography when he realized he was arranging thousands of Jewish corpses in nice photographic compositions In fascinating detail Carol Naggar not only recalls Roger s singular life and artistic contribution but she also provides an in depth look at the complex dynamics of ethics violence and photojournalism As such it places the legacy of George Rodger within a broader sociohistorical context *George Rodger* George Rodger,Carole Naggar,1999 *A Study Guide for Peter Ho Davies's "Think of England"* Gale, Cengage Learning, A Study Guide for Peter Ho Davies s Think of England excerpted from Gale s acclaimed Short Stories for Students This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust Short Stories for Students for all of your research needs **Bulldozer** Francesca Russello Ammon,2016-01-01 The first history of the bulldozer and its transformation from military weapon to essential tool for creating the post World War II American landscape Although the decades following World War II stand out as an era of rapid growth and construction in the United States those years were equally significant for large scale destruction In order to clear space for new suburban tract housing an ambitious system of interstate highways and extensive urban renewal development wrecking companies demolished buildings while earthmoving contractors leveled land at an unprecedented pace and scale In this pioneering history Francesca Russello Ammon explores how postwar America came to equate this destruction with progress The bulldozer functioned as both the means and the metaphor for this work As the machine transformed from a wartime weapon into an instrument of postwar planning it helped realize a landscape altering culture of clearance In the hands of the military planners politicians engineers construction workers and even children s book authors the bulldozer became an American icon Yet social and environmental injustices emerged as clearance projects continued unabated This awareness spurred environmental preservationist and citizen participation efforts that have helped to slow though not entirely stop the momentum of the postwar bulldozer George Rodger Carole Naggar,2003-10-01 He was a trailblazing twentieth century

Field,2011-11-03 Blood Sweat and Toil is the first scholarly history of the British working class in the Second World War It integrates social political and labour history and reflects the most recent scholarship and debates on social class gender and the forging of identities Geoffrey G Field examines the war s impact on workers in the varied contexts of the family military service the workplace local communities and the nation Previous studies of the Home Front have analysed the lives of civilians but they have neglected the importance of social class in defining popular experience and its centrality in public attitudes official policy and the politics of the war years Contrary to accounts that view the war as eroding class divisions and creating a new sense of social unity in Britain Field argues that the 1940s was a crucial decade in which the deeply fragmented working class of the interwar decades was remade achieving new collective status power and solidarity He criticizes recent revisionist scholarship that has downplayed the significance of class in British society Extensively researched using official documents diaries and letters the records of trade unions and numerous other institutions Blood Sweat and Toil traces the rapid growth of trade unionism joint consultation and strike actions in the war years It also analyses the mobilization of women into factories and the uniformed services and the lives of men conscripted into the army showing how these experiences shaped their social attitudes and aspirations Using opinion polls and other evidence Field traces the evolution of popular political attitudes from the evacuation of 1939 and the desperate months of late 1940 to the election of 1945 opposing recent claims that the electorate was indifferent or apathetic at the war s end but also eschewing blanket assumptions about popular radicalization Labour was an active agent in fashioning itself as both a national progressive party and the representative of working class interests in 1945 far from a mere passive beneficiary of anti Tory feeling it gave organizational form to the idealism and the demand for significant change that the war had generated *Photography and Literature* Eric Lambrechts,1992 **George Rodger** George Rodger,2009 The life of British photographer George Rodger 1908 1995 was full of adventure He was fascinated at an early age by the important storytellers

Robert Louis Stevenson Joseph Conrad and Henry Rider Haggard During World War II Rodger worked in sixty one countries as a war correspondent amongst others for LIFE and Picture Post Traumatized by what he saw at the concentration camp in Bergen Belsen which had just been liberated by British forces he decided to never again work as a war correspondent In 1947 along with Robert Capa Henri Cartier Bresson and David Seymour he founded MAGNUM Photos before setting out on a 21 000 mile journey across Africa and the Middle East This monograph presents a selection of Rodger s best photographs from between 1940 and 1949 the crucial years of his career Book Jacket **Sources for the History of London 1939-45** Heather J. Creaton,1998 *Review* ,1994 **Humanity and Inhumanity** George Rodger,Bruce Bernard,Peter Marlow,1994 *History of Photography* Laurent Roosens,1994 **The Photograph** Graham Clarke,1997 In this rich and fascinating work Clarke gives a clear and incisive account of the photograph s historical development elucidating the insights of the most engaging thinkers on the subject including Roland Barthes and Susan Sontag The Photograph offers a series of discussions of major themes and genres providing an up to date introduction to the history of photography 130 illustrations 16 in color **Shaped By War** Don McCullin,2020-01-16 No other photographer in modern times has recorded war and its aftermath as widely and unsparingly as Don McCullin After a childhood in London during the Blitz and after the hardships of evacuation McCullin feels his life has indeed been shaped by war From the building of the Berlin Wall at the height of the Cold War to El Salvador and Kurdistan McCullin has covered the major conflicts of the last fifty years with the notable exception of the Falklands for which he was denied access His pictures from the Citadel in Hue and in the ruins of Beirut are among the most unflinching records of modern war The publication of many of his greatest stories in the Sunday Times magazine did much to raise the consciousness of a generation even if he himself now fears that photographs cannot prevent history from repeating itself The brutality of conflict returns over and over again McCullin here voices his despair McCullin recounts the course of his professional life in a series of devastating texts on war the events and the power of photography The conclusion of the book marks McCullin s retreat to the Somerset landscape surrounding his home where the dark skies over England remind him yet again of images of war Despite the sense of belonging and even contentment for him there is no final escape **The New York Times Index** ,1991 The International Who's Who, 1991-92 55 1991-92,1991 Whitaker's Book List ,1991
