Bloody Ivory:

Bloody Ivory Robin Brown,1990 **Blood Ivory** Robin Brown,2011-11-08 masterly account of the massacre of the African elephant The Spectator It is more than a thousand years since the exploitation of the elephant began when they were most commonly used as war elephants However it is only in the last hundred years with the coming of the great white hunters and their special elephant guns that the very existence of the African elephant has been threatened With an update by John Hanks WWF s former leading elephant scientist this new edition of Blood Ivory tells the story of how the professional hunting fraternity was the first to realise the threat to the elephant and how it kick started the whole conservation movement It is not a story with a happy ending however It is a tale of war colonialists against traditional practices and customs newly independent African countries against each other poachers and smugglers against any kind of constraint Robin Brown draws on his depth of knowledge and understanding of Africa and his career as a leading wildlife film maker to paint a vivid picture of hunting s impact on Africa s elephant population vividly portraying the powerful personalities of those involved on both sides of the massacre **Blood Ivory** Andrew McCoy,1985-01-01 **Africa's Big Five and Other Wildlife Filmmakers** Jean Hartley,2010 Jean Hartley born in Kenya is acknowledged as being the first to legitimise fixing for wildlife film crews Over the last 25 years she has worked on over a thousand films the vast majority being about wildlife and nature She features five of the great film makers who all started their careers in Kenya in the1950s legends whom she is proud to call personal friends Watching all of their films and many more she became fascinated by the history of film making in Kenya and determined to find out when it all started In this insightful book she traces the roots of wildlife film back a hundred years drawing on accounts of the original film makers and the professional hunters who guided those early safaris She tracks the changes from those grainy speeded up silent films through to the technologically perfect High Definition and 3D films that are being made today Active Collections Elizabeth Wood,Rainey Tisdale,Trevor Jones,2017-11-07 In recent years many museums have implemented sweeping changes in how they engage audiences However changes to the field s approaches to collections stewardship have come much more slowly Active Collections critically examines existing approaches to museum collections and explores practical yet radical ways that museums can better manage their collections to actively advance their missions Approaching the question of modern museum collection stewardship from a position of tough love the authors argue that the museum field risks being constrained by rigid ways of thinking about objects Examining the field s relationship to objects artifacts and specimens the volume explores the question of stewardship through the dissection of a broad range of issues including questions of quality over quantity emotional attachment dispassionate cataloging and cognitive biases in curatorship The essays look to insights from fields as diverse as forest management library science and the psychology of compulsive hoarding to inform and innovate collection practices Essay contributions come from both experienced museum professionals and scholars from disciplines as diverse as psychology education and history The result is a critical exploration

that makes the book essential reading for museum professionals as well as those in training *Dark Blood* Christine Feehan,2015-09-29 An elite werewolf killer Zev Hunter begins to question both his past and his purpose after he is nursed back to consciousness by a member of the Dragonseeker clan **Blood of the Tiger** J. A. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
