## **Blue Finding Colors:**

*Blue* Moira Anderson, 2006 What is blue The color blue is all around What would you do with these blue things Color Curious Ana Bianchi, 2025-09-30 A creative s guide to color how to observe it in your surroundings combine it into unique palettes and apply it fearlessly in art craft and design Artist Ana Bianchi is on a mission to help people use color confidently in any creative practice This playful and highly visual book invites you to refresh your relationship to color by observing the world around you Each chapter takes a deep dive into a different color scheme from monochromes to the famous pop of color and helps readers find inspiration in art history travel household objects and more Hands on projects feature a wide variety of media and applications from painting a still life to making a gallery wall in your home Quotes stories vibrant visual examples and insightful guidance provide an accessible master class in becoming color curious and creating the consistent and rewarding habit of observing analyzing and creating with color This book is perfect for art students seeking to establish their personal voice creative types hoping to integrate more color into their lives and professional artists eager for a new perspective INTUITIVE APPROACH Ana Bianchi eschews technical color theory and embraces an intuitive and playful approach instead Whether you re an aspiring artist or a professional whether you want to apply color in your paintings or your wardrobe you ll find approachable and useful ideas in this book RAINBOW EYE CANDY The colorful photos and artwork are instructive and a delight for the eyes Bianchi s signature images show flowers from her garden and everyday objects from her home arranged by color highlighting the multitude of inspirations to be found in your surroundings and applied in your art FRESH PERSPECTIVE ON COLOR From the unique hues of vintage objects and faded flowers to the particular joy of kaleidoscopic childlike palettes the color explorations in this book will help you see the world with new eyes and approach your creative projects with refreshed energy Perfect for Professional and aspiring artists in all media Art students and enthusiasts Designers home decorators floral designers and crafters Anyone who eagerly awaits Pantone s Color of the Year announcement Readers of color exploration books like *The Secret Lives of Color* and *Color a Natural History of the Palette* Fans of inspirational creativity books like *Find Your Artistic Voice* and *The Artist s Way* *Finding Your Style In Pastel* Jean Hirons, 2012-10-25 As artists we have choices There are very few rules that apply across the board We can create highly realistic paintings or perhaps more expressive paintings or paintings that have very little basis in reality including those that are totally non representational We can record color as we see it or as we d like it to be As pastel artists we have even more choices We can use a wide variety of pastels strokes surfaces and techniques to create many different looks The choices we make form the framework of our individual style our signature as artists Any subscriber to *The Pastel Journal* realizes how varied the medium of pastel can be For the experienced artist these articles are stimulating offering possible ways to experiment with alternative approaches For the beginner the panoply of choices can be overwhelming Painting is primarily an intuitive process But intuition is gained through study and experience Part of my impetus in writing this book has been to

create a more structured approach to help those fairly new to the medium understand its many possibilities The book is aimed at all levels of pastel artists Beginners will find a wealth of helpful information and intermediate artists will gain insight into how to take their work to another level and develop a style Many advanced artists teach pastel the organization of ideas and the exercises included should be of assistance I offer a variety of suggested approaches and sometimes make up terminology to describe my experiences with the medium The instructions in the book are based on my preferences and the guidance that I offer my students The diversity of styles and techniques evident in the paintings of contributing artists should make it clear however that there are many ways to successfully work in pastel Having acknowledged the many possibilities I want to note a few musts Representational paintings must be well drawn Poor drawing skills cannot be overcome with lovely color or great technique Likewise paintings must have strong compositions regardless of whether they are realistic abstracted or non representational Values must be properly interpreted to produce strong compositions and to use pastel to its full effect And finally pastel paintings must sing Whether the applications are light and airy or rich and painterly it should be clear that the artist is in control of the medium and is using it to produce his or her desired look For years I have resisted suggestions that I write a book As a landscape painter I knew that there were more authoritative books already available And the growing popularity of pastel has led to so many resources including online blogs a biennial convention and the wonderful Pastel Journal mentioned above What could I add to this My personal training in pastel has been from weeklong landscape workshops with some of the leading pastel painters in the country As a teacher in a community college I am not teaching a particular style nor focusing on specific subject matter Some of my students work with the landscape but others do portraits or figurative work while others prefer still life or work abstractly In dealing with this mixture I ve realized that there are different ways to approach one s use of color and this formed my first idea for creating a book Furthermore as a teacher I ve spent time experimenting with different surfaces pastel brands and techniques in order to make suggestions to students to help them find the look they want to achieve I do not teach students to paint the way I do but instead try to share my experience and help them develop their own individual style
