The Blue Swallows Howard Nemerov, 1967 **A Handbook to the Swallows and Martins of the World** Angela Turner, Chris Rose, 2010-06-30 This reference guide gives general details about the swallows and martins of the world These include appearance the basic coloration and differences between the sexes and immatures and the function of other areas of colouring Several species within the same geographical area are often segregated by feeding in different habitats or at different heights or by eating different size classes of insects The two sub families one being the two river martins the other containing about 72 species mainly in the genus *hirundo* are dealt with including their distribution and migration patterns Feeding courtship and breeding habits are considered together with details of nesting sites clutch size incubation and life span Finally the population sizes of the various species are examined noting that whilst many have expanded their range by using man made structures forest species probably remain small and one species the Red Sea swallow is known from only one specimen The book follows the same approach style and presentation as *The Herons Handbook* published in 1985 It is illustrated by the winner of the prestigious British Birds Illustrator of the Year Award and the author has contributed to many scientific papers and journals including BBC's *Wildlife Magazine* *Birdscapes*, 2003 *The Swallow* Stephen Moss, 2020-10-29 From the bestselling author of *The Robin The Wren and The Twelve Birds of Christmas* With around 700 000 breeding pairs the swallow is one of the most familiar birds in Britain Though we consider the swallow to be our bird we also share this beloved creature with millions of others across the globe Whilst we see it on a daily basis for half the year the swallow then flies south to Africa living on only in our memory in the long dark winter In *The Swallow* Stephen Moss documents a year of observing the swallow close to home and in the field to shed light on the secret life of this extraordinary bird We trace the swallow's life cycle and journey including the epic 12 000 mile round trip it takes every year to enable it to enjoy a life of almost eternal sunshine and the key part the swallow plays in our traditional and popular culture With beautiful illustrations throughout this captivating year in the life biography reveals the hidden secrets of this charismatic and beautiful bird PRAISE FOR STEPHEN MOSS A superb naturalist and writer Chris Packham Inspired friendly and blessed with apparently limitless knowledge Peter Marren Moss has carved out an enviable niche as a chronicler of the natural world Daily Mail **American Pigeon Journal**, 1924 **Kansas at the Centennial** Kansas.
