**Liber Cultris: The Gospel According To Marvin "Knife" Sotelo** "Knife" Sotelo,2015-08-03 The central message of the Gospel of Rev Marvin Knife Sotelo is not as one whose ideas of Satanism have been shaped by pantomimes contrary to the human condition rather the very opposite It is a message that resonates through every chapter of Humanism Believe nothing but that which you alone can determine to be truth Man can free himself and it is the duty of all men to work towards this end What is pronounced is that the created does not need the Creator to attain its highest and most fruitful expression Such fulfillment including the residues of peace and prosperity of bliss and true happiness can only and will only be achieved from within

**Liber Cultris (Hardback)** "Knife" Sotelo,2016-06-23 Gospels speak of truth and as Nietzsche rightly noted we should not expect the truth to be comfortable The Gospel of Rev Marvin Knife Sotelo is a truth that unlike those fantastic fictions circulated in popular religious culture requires no annotation or inventive scapegoat for it contains no inherent contradictions

**Power Encounter in Spiritual Warfare** Charles H. Kraft, 2017-05-18 Acceptance of Christianity in Southern Polynesia during the eighteenth century proceeded rapidly without missionary activity This fact attracted the attention of Alan Tippett who served for twenty years as an Australian missionary to the Fiji Islands What he found was that the key to their conversion lay in the fact that without missionary presence the south sea islanders responded to demonstrations of what Tippett learned to call power encounters These were contests some staged some not staged in which there was a power encounter between the true God and the gods of the islanders in which the traditional gods were defeated Kraft here discusses the fact that this power principle applies much more widely

**The Myth and Mystery of UFOs** Thomas E. Bullard, 2016-10-17 When United Airlines workers reported a UFO at O Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings But when a related story broke the record for hits at the Chicago Tribune s website it was clear that such unexplained objects continued to occupy the minds of fascinated readers Why wonders Thomas Bullard don t such persistent sightings command more urgent attention from scientists scholars and mainstream journalists The answer in part lies in Bullard s wide ranging magisterial survey of the mysterious frustrating and ever evolving phenomenon that refuses to go away and our collective efforts to understand it In his trailblazing book Bullard views those efforts through the lens of mythmaking discovering what UFO accounts tell us about ourselves our beliefs and the possibility of visitors from beyond Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to hide the truth He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos Bullard s book takes in the whole spectrum of speculations on alien visitations and abductions magically advanced technologies governmental conspiracies varieties of religious salvation apocalyptic fears and other paranormal experiences Along the way Bullard investigates how UFOs have inspired books movies and television series blurred the boundaries between science science fiction and religion and crowded the Internet with websites and discussion groups From the patches of this crazy quilt he posits evidence that a genuine phenomenon seems to exist outside the myth Enormously erudite and endlessly engaging Bullard s study is a sky watcher s guide to the studies stories and debates that this elusive subject has inspired It shows that despite all the competing interests and errors clouding the subject

there is substance beneath the clutter a genuinely mysterious phenomenon that deserves attention as more than a myth
