Angles On Anarchism:

Angles on Anarchism George Walford, 1991 *Angles on Anarchism* George Walford, 2017-10 Collection of Pamphlets on Anarchism , 1899 **Postanarchism and Critical Art Practices** Saul Newman, Tihomir Topuzovski, 2024-04-18 Engaging with contemporary debates about the political role of art in an era of total market subsumption this book shows how artists respond to the challenges of political authoritarianism police violence right wing populism post truth discourse economic inequality pandemics and the environmental crisis transforming the public sphere in new and unexpected ways Going beyond sterile debates about identity politics diversity and representation that beset the mainstream media university campuses and other cultural domains the volume illustrates the ways in which artists are opening up alternative sites of contestation occupation and autonomous political thought and action Newman and Topuzovski examine here the artistic practices of multiple collectives and individuals deeply engaged with social and political activities such as Grupo de Arte Callejero GAC and Voina arguing that the best way to understand these new critical discourses and practices is through an updated political theory of anarchism or what we call postanarchism where the insurrection against power and the politics of singularity are central Featuring for instance an examination of significant movements such as Black Lives Matter as well as its use of artistic tactics such as graffiti graphic design and movement art the book launches itself into a vibrant discussion of the extent to which art can produce a multiplicity of practices through the deconstruction of existing legal political and cultural identities By developing an alternative way of exploring the nexus between art and politics through the idea of postanarchism this book bridges the gap between the two promoting an understanding of the political role that art can play today and introduces a theory of postanarchism to a non specialist audience of artists activists and those generally interested in new sites and directions for radical politics **The British National Bibliography** Arthur James Wells, 2005 *Reassessing the Transnational Turn* Constance Bantman, Bert Altena, 2014-12-05 This edited volume reassesses the ongoing transnational turn in anarchist and syndicalist studies a field where the interest in cross border connections has generated much innovative literature in the last decade It presents and extends up to date research into several dynamic historiographic fields and especially the history of the anarchist and syndicalist movements and the notions of transnational militancy and informal political networks Whilst restating the relevance of transnational approaches especially in connection with the concepts of personal networks and mediators the book underlines the importance of other scales of analysis in capturing the complexities of anarchist militancy due to both their centrality as a theme of reflection for militants and their role as a level of organization Especially crucial is the national level which is often overlooked due to the internationalism which was so central to anarchist ideology And yet as several chapters highlight anarchist discourses on the nation as opposed to the state patriotism and even race were more nuanced than is usually assumed The local and individual levels are also shown to be essential in anarchist militancy **Contemporary Italian Political Philosophy** Antonio

Calcagno,2015-07-06 Italy has a rich philosophical legacy and recent developments and movements in its political philosophy have produced a significant body of thought by internationally renowned philosophers working on questions and themes such as the critique of neoliberalism statehood politics and culture feminism community the stranger and the relationship between politics and action This volume brings this conversation to English language readers considering well known Italian philosophers such as Vattimo Agamben Esposito and Negri as well as philosophers with whom English language readers are less acquainted such as Luce Fabbri Adriana Cavarero and Lea Melandri In addition the essays extend the conversation beyond the realm of Italian philosophy bringing its thinkers into dialogue with philosophical figures including Badiou Marx Merleau Ponty Deleuze and Guattari Adorno Arendt Foucault Wittgenstein and the Peruvian historian and sociologist Anibal Quijano
