[The Politics of Military Coalitions](#) Scott Wolford, 2015-09-03 This book explains how military coalitions form as well as their implications for war peace and the spread of conflicts **The Triumph of the Dark** Zara Steiner, 2011-03-31 In this magisterial narrative Zara Steiner traces the twisted road to war that began with Hitler s assumption of power in Germany Covering a wide geographical canvas from America to the Far East Steiner provides an indispensable reassessment of the most disputed events of these tumultuous years Steiner underlines the far reaching consequences of the Great Depression which shifted the initiative in international affairs from those who upheld the status quo to those who were intent on destroying it In Europe the 1930s were Hitler s years He moved the major chess pieces on the board forcing the others to respond From the start Steiner argues he intended war and he repeatedly gambled on Germany s future to acquire the necessary resources to fulfil his continental ambitions Only war could have stopped him an unwelcome message for most of Europe Misperception miscomprehension and misjudgment on the part of the other Great Powers leaders opened the way for Hitler s repeated diplomatic successes It is ideology that distinguished the Hitler era from previous struggles for the mastery of Europe Ideological presumptions created false images and raised barriers to understanding that even good intelligence could not penetrate Only when the leaders of Britain and France realized the scale of Hitler s ambition and the challenge Germany posed to their Great Power status did they finally declare war **The Concise Encyclopedia of World War II**
