## **Anglo-Irish Novel 1900-1940:**

1900-1940 John Cronin, 1990      **The Anglo-Irish Novel** John Cronin, 1980      The Anglo-Irish Novel: 1900-1940 John Cronin, 1980      **Irish Fiction, 1900-1940** John Cronin, 1992      **The Achievement of Brian Friel** Alan J. Peacock, 1993

The reception of Brian Friel's recent *Dancing at Lughnasa* confirms his status as Ireland's leading dramatist. The body of work that he has produced is outstanding in its breadth of sympathy and interest, its dramaturgical invention and its wide cultural and intellectual purview. At one level it may be seen as a continuous examination of Irish culture and politics, committed and analytical but not sectionally propagandist. His outlook in his drama however is not amenable to simplistic categorization, political or otherwise. As this volume demonstrates, linguistically allusively and in terms of its broad transcultural analogising, his work ranges widely. He utilises ideas and terminologies drawn from various cultural sources and academic disciplines in a way that exemplifies his central insistent concern with the phenomenon of language and its implications. As an Irish dramatist however, he makes Irish social, political and notably family life his focus and builds upon a recognised tradition of twentieth-century Irish play writing. This book addresses the variety and complexity of Friel's drama by bringing to bear a range of academic and other professional and creative approaches in order to highlight particular aspects of his work and thought. Hence contributors include a playwright, poet, theatre producer, historian and various specialists in relevant literatures. In this way the book suggests the intellectual richness, humanity and protean skill and invention of the work.

A New History of Ireland Volume VII J. R. Hill, 2003-12-04. *A New History of Ireland* is the largest scholarly project in modern Irish history. In 9 volumes it provides a comprehensive new synthesis of modern scholarship on every aspect of Irish history and prehistory from the earliest geological and archaeological evidence through the Middle Ages down to the present day. Volume VII covers a period of major significance in Ireland's history. It outlines the division of Ireland and the eventual establishment of the Irish Republic. It provides comprehensive coverage of political developments north and south as well as offering chapters on the economy, literature in English and Irish, the Irish language, the visual arts, emigration and immigration and the history of women. The contributors to this volume, all specialists in their field, provide the most comprehensive treatment of these developments of any single volume survey of twentieth-century Ireland.

**Flann O'Brien & Modernism** Julian Murphet, Ronan McDonald, Sascha Morrell, 2014-07-31. *Flann O'Brien: the ethics and paradoxes of naming, parody and homage, lies and deception, theatricality, sexuality, technology and transport and the inevitable matter of drink and intoxication.* Taken together these specific topics construct a mosaic image of O'Brien as an exemplary modernist, auteur abreast of all the most salient philosophical and technical concerns affecting literary production in the period immediately before and after World War Two.

Thomas Davis and Ireland Helen F. Mulvey,2003 His first biography written by his friend and collaborator Duffy was published in 1890 and is an invaluable source for Davis s life and his part in the Irish nationalist struggle Duffy s work was as well a eulogy presenting Davis in so favorable a light that he seems at times unreal To provide a more thorough objective portrait of Davis historian Helen F Mulvey here presents a scholarly examination of Davis s life and thoughts **Books in Print** ,1991 **The Color of Race in America, 1900-1940** Matthew Pratt Guterl,2002-10-30 With the social change brought on by the Great Migration of African Americans into the urban northeast after the Great War came the surge of a biracial sensibility that made America different from other Western nations How white and black people thought about race and how both groups understood and attempted to define and control the demographic transformation are the subjects of this new book by a rising star in American history An elegant account of the roiling environment that witnessed the shift from the multiplicity of white races to the arrival of biracialism this book focuses on four representative spokesmen for the transforming age Daniel Cohalan the Irish American nationalist Tammany Hall man and ruthless politician Madison Grant the patrician eugenicist and noisy white supremacist W E B Du Bois the African American social scientist and advocate of social justice and Jean Toomer the American pluralist and novelist of the interior life Race politics and classification were their intense and troubling preoccupations in a world they did not create would not accept and tried to change *France, Britain and the United States in the Twentieth Century 1900 - 1940* A. Williams,2014-07-15 Why is France so often relegated to the background in studies of international relations This book seeks to redress this balance exploring the relationship between the United States United Kingdom and France and its wider impact on the theory and practice of international relations

*"An Anarchy in the Mind and in the Heart"* Ellen M. Wolff,2006 This is a study of some of Anglo Ireland s most compelling twentieth century attempts at self representation In contrast to formative studies that read Anglo Irish fiction as a predictably colonialist literature that nostalgically champions ruling class culture the author argues that novels by such authors as Molly Keane Elizabeth Bowen and Samuel Beckett are in fact richly textured narratives that sustain continuous debates with their own visions and revisions of history and culture The book contributes to the ongoing effort in Irish cultural

studies to analyze myths and stereotypes that have been both symptom and cause of Irish troubles past and present and helps destabilize problematically binary terminologies toward which discourse about postcoloniality can tend In the process the author refines received ideas about literary modernism and post modernism and suggests failings in the prevailing theory and practice of ideology critique Ellen M Wolff is Eleanor Gwin Ellis Instructor in English at Phillips Exeter Academy
