decision My intent is not to harm Islam in any way but to encourage more critical thinking using reason and logic It s the accepting of ideas hammered into your head from childhood without critically examining those ideas with an adult mind It s the idea of being so committed to something being true one loses all ability to reason and think logically My goal for this book is to make you think about certain ideas harder than you ever did before I want to make you question your own beliefs and think about how you came to hold those beliefs in the first place I want you to challenge any of my ideas that do not make sense to you or ideas with which you disagree I am simply going back to the very beginning literally and critically examine some of the more universally accepted beliefs that we hold today As you follow me on this journey it s my hope that you will see that the idea of divine revelation may just be a lot more human than divine **Our Dumb Animals** ,1909
