Animal Spaces Bestly Places New Geographies Of Human Animal Relations:

Animal Spaces, Bestly Places Chris Philo, Chris Wilbert, 2000 This book explores the variations on the human animal spatial orderings It develops new ways of thinking about human animal interactions and encourages us to find new ways for humans and animals to live together

Animal Spaces, Bestly Places Chris Philo, 2000 Handbook of Cultural Geography Kay Anderson, 2003 The editors of this genuinely brilliant book seem to dare the reader to argue with them from the first page I would encourage everyone interested in cultural geography or in the cultural turn within a whole set of human geographies to do likewise ANNALS OF THE ASSOCIATION OF AMERICAN GEOGRAPHERS A richly plural and impassioned re presentation of cultural geography that eschews everything in the way of boundary drawing and fixity A re visioning of the field as a set of engagements with the world it contains a vibrant atlas of ever shifting possibilities Throbbing with commitment and un disciplined in the most positive sense of that term it is exactly what a handbook ought to be Professor Allan Pred Department of Geography University of California at Berkeley Ten sections with a detailed editorial introduction the Handbook of Cultural Geography presents a comprehensive statement of the relation between the cultural imagination and the geographical imagination Emphasising the intellectual diversity of the discipline the Handbook is a textured overview that presents a state of the art assessment of the key questions informing cultural geography while also looking at resonances between cultural geography and other disciplines

The SAGE Handbook of Qualitative Geography Dydia DeLyser, 2010 The process of learning qualitative research has altered dramatically and this Handbook explores the growth change and complexity within the topic and looks back over its history to assess the current state of the art and indicate possible future directions Moving beyond textbook rehearsals of standard issues the book examines key methodological debates and conflicts approaching them in a critical discursive manner A Companion to Feminist Geography Lise Nelson, Joni Seager, 2025-07-28 A Companion to Feminist Geography captures the breadth and diversity of this vibrant and substantive field Shows how feminist geography has changed the landscape of geographical inquiry and knowledge since the 1970s Explores the diverse literatures that comprise feminist geography today Showcases cutting edge research by feminist geographers Charts emerging areas of scholarship such as the body and the nation Contributions from 50 leading international scholars in the field Each chapter can be read for its own distinctive contribution

Journal for the Study of Food and Society, 1998 **A Full-bodied Society** Logie Barrow, François Poirier, 2010 Repeatedly the rigidity of separation between male and female fluctuated as did the boundaries themselves Sometimes the greater the rigidity the less the sources may tell us of resistance to them But sometimes this can be inferred indirectly pub desc

Material History Review, 2005 *Prehistoric Journeys* Vicki Cummings, Robert Johnston, 2007 This collection of thirteen papers focuses on what it meant to be on the move at different times in prehistory Ideas of journeys and travel are integral to many traditions of interpreting the prehistoric archaeological record Travel was after all the driving force behind the

formation and transformation of identity How ironic it is that this feature of prehistory has been so overlooked when the ancient world's discovery in the Eighteenth and Nineteenth Centuries occurred primarily as the result of travel The contributors to this volume see journeys as an integral part of prehistoric life socially meaningful which must be understood within their pre-historic contexts *Encyclopedia of the Victorian Era: Mann-Spin*, 2004 *The Unorthodox Imagination in Late Medieval Britain* Sophie Page, 2010 The unorthodox imagination in late medieval Britain explores how medieval people responded to images stories beliefs and practices which were at odds with the normative world view from the heretical and subversive to the marvellous and exotic The Neale lecture by Jean Claude Schmitt examines why some unorthodox images were viewed as provocative and threatening and explores how successfully ecclesiastical authorities contained their impact The power of unorthodoxy to provoke wonder skepticism or disapproval provides an opportunity to view medieval culture from fresh perspectives The essays in this volume show that unorthodoxy was embedded in mainstream medieval culture from stories of fairies and witches which promoted orthodox moral values to the social conformity of practitioners of ritual magic This book provides a guide to understanding medieval unorthodoxy and the roles played by experience and imagination in medieval encounters with the unorthodox It will be essential reading for anyone interested in the exotic provocative and deviant in medieval culture *Thorstein Veblen's Contribution to Environmental Sociology* Ross E. Mitchell, 2007 Features essays that focus on the life thought and writings of Thorstein Bunde Veblen 1857-1929 the American political economist and sociologist This volume examines Veblen's potential contributions to the subfield of political ecology from several diverse yet complementary angles including his take on wasteful industrialism *Rights of Way* Alexandra Koelle, 2010 *Environment & Planning*, 2010-05 **Watching Wildlife** Cynthia Chris, 2002 *E.T. Culture* Debbora Battaglia, 2005 Cultural readings of alien encounters *West of Eden* Sue Sorensen, 2008 These 17 essays ponder the character of prairie literature What is prairie literature now what has it been and what is its future That the prairies are west of Eden is an idea only and a somewhat mischievous one Is this spot distant from the glory of the garden Writers have often pondered the ambiguous sanctity of the prairies while those who recruited settlers certainly exploited the notion These varied essays engage with Margaret Laurence Rudy Wiebe and Neil Young They present analysis of NFB films and the gopher as icon Here are strategies for teaching and views of the Canadian prairies from abroad This is a significant collection of fresh views of prairie literature **Fauna and Flora in the Middle Ages** Sieglinde Hartmann, 2007 How did humans and their behaviour affect and change the natural world during the Middle Ages And what in turn was the impact of environmental changes on the minds and identities of humans In this book historians of literature art mentalities law and natural science suggest answers to these questions focussing on the most vital elements of Europe's environment animals plants and landscape In their interdisciplinary approach wide variety of source material and specific findings these studies present a multifaceted picture of environmental history and reveal a broad range of attitudes towards the natural world

current in Western Europe during the Middle Ages Moreover these case studies help us to understand various ways in which medieval developments shaped our modern world and minds Policy and Practice in Antarctica Jessica L. O'Reilly,2008 This dissertation analyzes how Antarctic scientists and policy makers influence environmental management for the continent In Antarctic society scientific expertise and authority as well as conceptions of the Antarctic place must be constantly shaped through policy and practice I conducted sixteen months of ethnographic fieldwork and interviews in Christchurch New Zealand a central site of Antarctic culture at political and scientific meetings and workshops in New Zealand Australia Scotland and India and on a research expedition near Scott Base Antarctica I examined the lived intricacies of this international environmental space and people s relationship to Antarctic environmental management by mapping examining and traveling within the networks that scientists and other Antarctic community members form Competing claims of nationalism scientific disciplines field experiences and personal relationships in Antarctic environmental management disrupt the idea of a utopian epistemic community so I focused on what emerges in Antarctica among the complicated and hybrid forms of science sociality politics and national membership found there This dissertation contains case studies that depict how knowledge based communities form and have effects in Antarctica These case studies include 1 a camping rule that rocks moved by people must be returned to their original location 2 biosecurity regulations for Antarctic species and non native species to Antarctica 3 international negotiations over a special managed area and 4 the contributions of Antarctic scientists policy and data to climate change mitigation These formations and effects take work not the least of which involves at least tentative agreements of the core ideas of expertise and communities Antarctic people translate science through the policy system to make environmental management decisions through playful and serious arrangements of policy and practice humans and nonhuman entities In particular policy and practice in these Antarctic expert communities coalesce in the making of procedures documents and audiences In the Antarctic referring lives and work of human and nonhuman expert community members this continent of peace science and other exceptionalisms is crafted as a technocratic wilderness
