Arkana Dictionary Of New Perspectives:

The Arkana Dictionary of New Perspectives Stuart Holroyd,1989 The Archetypal Cosmos Keiron Le Grice,2011-06-09 The modern world is passing through a time of critical change on many levels cultural political ecological and spiritual We are witnessing the decline and dissolution of the old order the tumult and uncertainty of a new birth Against this background there is an urgent need for a coherent framework of meaning to lead us beyond the growing fragmentation of culture belief and personal identity Keiron Le Grice argues that the developing insights of a new cosmology could provide this framework helping us to discover an underlying order shaping our life experiences In a compelling synthesis of the ideas of seminal thinkers from depth psychology and the new paradigm sciences Le Grice positions the new discipline of archetypal astrology at the centre of an emerging world view that reunifies psyche and cosmos spirituality and science mythology and metaphysi and enables us to see mythic gods heroes and themes in a fresh light He draws especially on the work of C G Jung Joseph Campbell Richard Tarnas Fritjof Capra David Bohm and Brian Swimme Heralding a rediscovery of the gods and the passage into a new spiritual era The Archetypal Cosmos presents a new understanding of the role of myth and archetypal principles in our lives one that could give a cosmic perspective and deeper meaning to our personal experiences *Feelings* Charles Birch,1995 Feelings are what matter most in our lives But we are only now beginning to understand what feelings are and how to control them Much has been discovered in recent years about the science of feelings The radical proposition of this book is that feelings cannot be reduced to physics and chemistry yet are as real as physics and chemistry This book breaks new ground in showing how the science of feelings and the feeling of feelings come together It raises the question of feelings not only in humans but in all living creatures including the claims of some that computers may have feelings **The Theory of Material Mind** Philip Hodgetts,2024-05-24 In this ground breaking theory the mechanisms behind parapsychological phenomena are analysed and logical proof is provided for the truth of astrology and the existence of the soul and spirit The personal conscious is revealed to be motivated by a metaphysical intelligence known as the god within which is the root of all paranormal phenomena The theory also introduces the concept of psycho plasma a medium that connects all life past and present and is the source of telepathy and other paranormal phenomena The existence of intelligent design is proposed as a complement to natural selection with ID providing the motive force for change and NS serving as the template for design Atheism is rejected and the existence of a supreme being and the afterlife is affirmed **Alternative Healthcare** Jack Raso,2013-12-05 Raso examines the philosophical underpinnings of alternative medicine as well as hands on healing Qigong and faith healing He shows that whatever the specific philosophy the common denominator is a rejection of the scientific approach of modern medicine in favor of a belief in paranormal forces that influence the well being of mind and body The final section is a firsthand account of Raso s many revealing visits to various alternative healthcare practitioners The book concludes with an encyclopedic glossary of alternative healthcare terminology **The Third Level**

of Reality Percy Seymour,2003-03-01 The Third Level of Reality is a reprint of a book by Percy Seymour originally titled The Paranormal Beyond Sensory Science This edition features a new foreword by Colin Wilson TOTAL REALITY CONSISTS OF THREE LEVELS The first level of reality is the reality of the five senses The second level of reality is that which results from the response of humans and animals to magnetic fields This response can not only be used to find direction time and location in space but it also allows us to understand some of the links between human personality and the state of the cosmos at the birth of each individual The third level of reality requires a reformulation of our concepts of space and time The main concept at the basis of this level is that some pairs of points in space anchored on two types of subatomic particle are linked by two different levels of space only one of which is accessible to our five normal senses and scientific instruments This other space let s call it extrasensory space is not limited by the speed of light Here particles and events are instantaneously linked to those particles and events with which they last interacted This approach to space and time makes it possible to understand a wide variety of phenomena relating to subatomic physics and to phenomena that we currently classify as paranormal including the human aura apparitions telepathy clairvoyance and our ability to look into the future *Severe Depression* Philip J. Barker,2013-11-11 *The Journal of Parapsychology* Joseph Banks Rhine,Charles Edward Stuart,William McDougall,1990 **The Journal of Transpersonal Psychology** ,1990 Paperbound Books in Print ,1992 The British National Bibliography Arthur James Wells,1996 *The Child and the Serpent* Jyoti Sahi,1990 Nutrition Forum ,1995 Mystical Diets Jack Raso,1993-06 No Marketing Blurb *British Book News* British Council,1992 Includes no 53a British wartime books for young people **Problèmes des genres littéraires** ,1991 **Cumulative Book Index** ,1998 A world list of books in the English language Islamic Economic Studies ,2012 **The English Academy Review** ,2006 *Whitaker's Book List* ,1991
