Armageddon And The New Millenium:

Armageddon and the New Millenium Morris Cerullo, Morris Cerullo World Evangelism, 1999 *The New Millennium Manual* Robert G. Clouse, Robert N. Hosack, Richard V. Pierard, 1999 A balanced examination of the historical theological and cultural issues raised by the coming new millennium is presented in an illustrated user friendly format **Nostradamus and the New Millennium** Michael Jordan, 1998 Based upon a more optimistic outlook than most books that delve into the prophecies of 16th century seer Nostradamus this study challenges many of the traditional views put forward regarding his predictions *Roth and Trauma* Aimee Pozorski, 2011-07-14 Roth and Trauma The Problem of History in the Later Works 1995 2010 moves beyond a critical reception of Philip Roth's recent fiction that has focused primarily on an interest in post WWII America By contrast Aimee Pozorski argues that these novels grapple more comprehensively with US history in their fascination with America's traumatic beginnings and the legacy of the American Revolution Drawing on close readings and trauma theory Roth and Trauma reveals the problem of history in Roth's later works to be the unexpected and repeated appearance of historical trauma that links the still unfinished American dream with the nightmarish quality of our recent history [A History of the Apocalypse](#) Catalin Negru, 2023-01-20 Religion For thousands of years this thing has dictated which people should live and which people should die what shape our buildings should have or what colors our garments should contain what food people should eat or what words people should speak If religion is the opium of the masses then beliefs about the end of the world are like overdoses People touched by such beliefs no longer rely on a hidden personal and intimate god contemplated upon from the safe distance of the beating human heart They live with the promise of divine intervention at a grand scale on the current coordinates of space and time This can be an exceptional motivator and a game changer in terms of civil obedience both at an individual and collective level In the name of an immediate and palpable deity people can commit shocking cruelties However such belief can also account for some of the most exceptional social developments in human history [Apocalyptic Fever](#) Richard G. Kyle, 2012-08-01 How will the world end Doomsday ideas in Western history have been both persistent and adaptable peaking at various times including in modern America Public opinion polls indicate that a substantial number of Americans look for the return of Christ or some catastrophic event The views expressed in these polls have been reinforced by the market process Whether through purchasing paperbacks or watching television programs millions of Americans have expressed an interest in end time events Americans have a tremendous appetite for prophecy more than nearly any other people in the modern world Why do Americans love doomsday In *Apocalyptic Fever* Richard Kyle attempts to answer this question showing how dispensational premillennialism has been the driving force behind doomsday ideas Yet while several chapters are devoted to this topic this book covers much more It surveys end time views in modern America from a wide range of perspectives dispensationalism Catholicism science fringe religions the occult fiction the year 2000 Islam politics the Mayan calendar and more *Christianity and Hegemony* Jan

Nederveen Pieterse, 1992-09-08 By comparing Third World evangelical churches to those in America the authors ask to what extent a right wing political agenda underlies the recent upsurge of such churches **The Gospel for the New Millennium** Chris Schofield, 2001 General editor J Chris Schofield has compiled an inspiring collection of essays on evangelism touching many of the pertinent themes and concerns Christians will face in the new millennium Essay topics include prayer and presence evangelism evangelism and personal holiness revival and spiritual awakening community ministries and evangelism and more *False Dawn* Lee Penn, 2004 The interfaith movement which began with the 1893 World s Parliament of Religions in Chicago has grown worldwide Although this movement has been largely unknown to the public it now provides a spiritual face for globalization the economic and political forces leading us all from nationalism to One World The most ambitious organization in today s interfaith movement is the United Religions Initiative URI founded by William Swing the Episcopal Bishop of California Investigative reporter Lee Penn a Catholic ex Marxist exhaustively documents the history and beliefs of the URI and its New Age and globalist allies the vested interests that support these movements and the direction they appear to be taking The interfaith movement is no longer merely the province of a coterie of little heeded religious idealists with grandiose visions The URI s proponents have ranged from billionaire George Soros to President George W Bush from the far right Rev Sun Myung Moon to the liberal Catholic theologian Hans K ng and from the Dalai Lama to the leaders of government approved Protestant churches in the People s Republic of China The interfaith movement including the URI is being promoted by globalist and New Age reformers who favor erosion of national sovereignty marginalization of traditional religions establishment of global governance and creation of a new Earth based global spirituality in effect a one world religion Therefore the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order the new civilization now proposed by Mikhail Gorbachev the last leader of the Soviet Union In *The Reign of Quantity and the Signs of the Times* French metaphysician Ren Gu non spoke of the anti tradition the forces of materialism and secular humanism finally giving way to the counter tradition the satanic inversion of true spirituality leading to the regime of Antichrist The anti tradition weakens and dissolves traditional spiritualities after which the counter tradition sets up a counterfeit in their place Since Gu non s time as is well known anti traditional forces have greatly advanced worldwide It is less well known that counter traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before The counter tradition is making inroads on the political and cultural Right as much as it is doing on the Left *False Dawn* painstakingly documents these trends and speculates on their future development In so doing the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the 21st century This extraordinary project is the literary equivalent of turning over a flat rock There is much to be seen and learned here all of it unsettling disquieting occasionally downright scary William Murchison Radford Distinguished Professor Baylor University When a

bishop of a Christian church happily worships alongside a Wiccan invoking other gods something has gone horribly wrong In False Dawn Lee Penn has produced a comprehensive and critical history of the United Religions Initiative This book sounds a clear warning Anyone who makes theological truth subservient to utopianism denigrates all religions Douglas LeBlanc Editor GetReligion.org

Revelation's Predictions for a New Millennium Mark A. Finley,2000

The End of Time Richard K. Fenn,1997 The End of Time is a highly original and topical study of how societies and individuals deal with the meaning and passage of time Richard Fenn has a particular interest in time running out in making up for lost time and in what society invariably through ritual may demand in such situations by way of sacrifice Fenn makes the disturbing claim that temporal panic the idea that time is short leads to the exacerbation in society of fascist tendencies fascist movements are the direct result of anxiety and panic about running out of time and may have a lasting and disastrous effect on the communities which give rise to them The message of this book is that it is exceedingly dangerous for any society to run out of time In the shadow of the millennium at the end of the century Fenn discusses what the ultimate end of time might signify This exciting interdisciplinary work written by a leading sociologist of religion writing at the height of his powers will appeal to scholars of religion sociology anthropology and cultural studies alike
