## **Army And Vietnam:**

*The Army and Vietnam* Andrew F. Krepinevich Jr., 1986-05-01 Many senior army officials still claim that if they had been given enough soldiers and weapons the United States could have won the war in Vietnam In this probing analysis of U S military policy in Vietnam career army officer and strategist Andrew F Krepinevich Jr argues that precisely because of this mindset the war was lost before it was fought The army assumed that it could transplant to Indochina the operational methods that had been successful in the European battle theaters of World War II an approach that proved ill suited to the way the Vietnamese Communist forces fought Theirs was a war of insurgency and counterinsurgency Krepinevich contends requires light infantry formations firepower restraint and the resolution of political and social problems within the nation To the very end top military commanders refused to recognize this Krepinevich documents the deep division not only between the American military and civilian leaders over the very nature of the war but also within the U S Army itself Through extensive research in declassified material and interviews with officers and men with battlefield experience he shows that those engaged in the combat understood early on that they were involved in a different kind of conflict Their reports and urgings were discounted by the generals who pressed on with a conventional war that brought devastation but little success A thorough analysis of the U S Army s role in the Vietnam War *The Army and Vietnam* demonstrates with chilling persuasiveness the ways in which the army was unprepared to fight lessons applicable to today s wars in Afghanistan and Iraq

United States Army in Vietnam Ronald H. Spector, 1983 Advice and Support describes the activities of the U S Army in Vietnam during World War II military advice and assistance to the French government during the immediate postwar years and the advisory program that developed after the Geneva Agreements of 1954 Its scope ranges from high level policy decisions to low echelon advisory operations in the field presented against a background of relevant military and political developments Useful not only as a study of military assistance but as a view of the Army as an agent of national policy Ronald Spector's interesting book is a fitting introduction to the overall study of the conflict in Vietnam

**Deepening Involvement 1945-1965** Center of Center of Military History United States Army, Center of Military History United States., Richard Stewart, 2014-12-12 To many Americans the war in Vietnam was and remains a divisive conflict Now almost fifty years after the beginning of major U S combat operations in Vietnam the war has faded from much of America s consciousness Over half of the U S population was born after the war and has no direct memory of the conflict yet this does not lessen its importance The massive American commitment political military and diplomatic to the independence of South Vietnam beginning in the 1950s and continuing with U S direct combat operations in the 1960s and early 1970s makes it important to remember those who served U S involvement in this corner of Southeast Asia began after World War II when Vietnam was fighting for independence from France Although generally favoring Vietnamese independence the United States supported France because the rebels or Viet Minh were led by Communists and in the days of the Cold War U S officials

considered any and all Communists to be little more than the puppets of Moscow and Beijing France's defeat in 1954 the bifurcation of Vietnam into a Communist North and non Communist South and America's assumption of the job of training the armed forces of the newly created non Communist Republic of Vietnam pulled the United States deeper into the conflict Framed primarily as a fight to defend democracy against the forces of international communism the United States gradually committed more troops and materiel to fight Communist led Southern guerrillas or Viet Cong and the regular military forces sent to South Vietnam by the politburo in Hanoi By the time President Lyndon B Johnson committed major combat units in 1965 the United States had already invested thousands of men and millions of dollars in the fight to build a secure and stable South Vietnam That commitment expanded rapidly until by 1969 the United States had over 365 000 soldiers in every military region of South Vietnam with thousands of other servicemen and women throughout the Pacific area in direct support of operations The war saw many technological innovations including the massive use of helicopters wide scale use of computers sophisticated psychological operations new concepts of counterinsurgency and major advances in military medicine Yet as in most wars much of the burden of battle was still borne by the foot soldiers on the ground who slogged over the hills and through the rice paddies in search of an often elusive foe The enormous military and political effort by the United States was however continuously matched by the determination of North Vietnamese leaders to unify their country under communism at whatever cost That determination in the end proved decisive Negotiations accompanied by the gradual withdrawal of American forces led to the Paris Peace Accords in January 1973 effectively ending the U S military role The continued existence of an independent South Vietnam however was of short duration Two years after the American exit the North Vietnamese Army overran South Vietnam and sealed its victory in April 1975 The vast majority of American men and women who served in Vietnam did so in the uniform of the United States Army They served their country when called many at great personal cost against a backdrop of growing uncertainty and unrest at home These commemorative pamphlets are dedicated to them

**Buying Time 1965-1966 - The U.S. Army Campaigns of the Vietnam War - Ho Chi Minh, Viet Minh Guerrilla Army, General Westmoreland, People's Army of Vietnam (PAVN), First American Combat Troops** U. S. Military, Department of Defense (DoD), U. S. Army, U. S. Government, 2018-01-07 This excellent book by the U S Army provides a unique view of the early days of the Vietnam War Contents Strategic Setting Operations The First Combat Troops Arrive The Start of Offensive Operations First Blood A Flurry of Engagements Year of the Horse 1966 Renewed Emphasis on Pacification Building the Infrastructure Analysis In January 1965 the principal U S ally against communism in Southeast Asia the Republic of South Vietnam appeared to be headed for collapse Armed revolutionaries fighting a proxy war on behalf of Communist North Vietnam held the political and military initiative The insurgents controlled nearly half of South Vietnam's countryside and almost a third of its population The U S trained South Vietnamese Army was losing soldiers and equipment at an alarming

rate Regiment size enemy units threatened the nation's capital Saigon and the fractious coalition of civilian and military officials who governed the country seemed unable to deal with the crisis President Lyndon B Johnson and his National Security Council concluded that the Republic of Vietnam could only survive if the United States took a more active part in the war America's military involvement in Vietnam began twenty years earlier when a team of agents from the Office of Strategic Services predecessor to the Central Intelligence Agency parachuted into northern Vietnam during the closing months of World War II The team formed an alliance with Ho Chi Minh and his Viet Minh Viet Nam Doc Lap Dong Minh Hoi or League for the Independence of Vietnam guerrilla army which had been fighting the Japanese troops occupying the former French colony since 1941 Needing the Viet Minh's help in rescuing downed Allied airmen the United States overlooked the fact that Ho Chi Minh was also a Marxist Leninist revolutionary who had been trying to end French colonial rule since the 1920s That became impossible to ignore in late August 1945 however when Japan surrendered to the Allies and Ho's victorious army seized control of Hanoi France still stinging from its wartime humiliation demanded the restoration of its Indochinese colonies Ho Chi Minh and his Viet Minh army retreated to the countryside but neither the Communists nor many Vietnamese nationalists were willing to abandon the dream of Vietnamese independence Within two years Ho and his followers were at war with the French colonial government

*What Was the Vietnam War?* Jim O'Connor, Who HQ, 2019-05-07 Learn how the United States ended up fighting for twenty years in a remote country on the other side of the world The Vietnam War was as much a part of the tumultuous Sixties as Flower Power and the Civil Rights Movement Five US presidents were convinced that American troops could end a war in the small divided country of Vietnam and stop Communism from spreading in Southeast Asia But they were wrong and the result was the death of 58 000 American troops Presenting all sides of a complicated and tragic chapter in recent history Jim O'Connor explains why the US got involved what the human cost was and how defeat in Vietnam left a lasting scar on America

ARVN Robert K. Brigham, 2020-07-17 Scorned by allies and enemies alike the Army of the Republic of Vietnam ARVN was one of the most maligned fighting forces in modern history Cobbled together by U S advisers from the remnants of the French inspired Vietnamese National Army it was effectively pushed aside by the Americans in 1965 When toward the end of the war the army was compelled to reassert itself it was too little too late for all concerned In this first in depth history of the ARVN from 1955 to 1975 Robert Brigham takes readers into the barracks and training centers of the ARVN to plumb the hearts and souls of these forgotten soldiers Through his masterly command of Vietnamese language sources diaries memoirs letters oral interviews and more he explores the lives of ordinary men focusing on troop morale and motivation within the context of traditional Vietnamese society and a regime that made impossible demands upon its soldiers Offering keen insights into ARVN veterans lives as both soldiers and devout kinsmen Brigham reveals what they thought about their American allies their Communist enemies and their own government He describes the conscription policy that forced these men into the army for indefinite periods with a shameful lack of training

and battlefield preparation and examines how soldiers felt about barracks life in provinces far from their homes He also explores the cultural causes of the ARVN's estrangement from the government and describes key military engagements that defined the achievements failures and limitations of the ARVN as a fighting force Along the way he explodes some of the myths about ARVN soldiers cowardice corruption and lack of patriotism that have made the ARVN the scapegoat for America's defeat Ultimately as Brigham shows without any real political commitment to a divided Vietnam or vision for the future the ARVN retreated into a subnational culture that redefined the war's meaning saving their families His fascinating book gives us a fuller understanding not only of the Vietnam War but also of the problems associated with U S nation building through military intervention

[Vietnam's Forgotten Army](#) Andrew Wiest,2008 Andrew Wiest weaves historical analysis with a compelling narrative showing how Dinh's and Hue's experiences and legacies mirror that of the ARVN's rise and fall as well as the tragic history of South Vietnam Jacket

**No Sure Victory** Gregory A. Daddis,2011-06-01 Conventional wisdom holds that the US Army in Vietnam thrust into an unconventional war where occupying terrain was a meaningless measure of success depended on body counts as its sole measure of military progress In *No Sure Victory* Army officer and historian Gregory Daddis looks far deeper into the Army's techniques for measuring military success and presents a much more complicated and disturbing account of the American misadventure in Indochina Daddis shows how the US Army which confronted an unfamiliar enemy and an even more unfamiliar form of warfare adopted a massive and eventually unmanageable system of measurements and formulas to track the progress of military operations that ranged from pacification efforts to search and destroy missions The Army's monthly Measurement of Progress reports covered innumerable aspects of the fighting in Vietnam force ratios Vietcong North Vietnamese Army incidents tactical air sorties weapons losses security of base areas and roads population control area control and hamlet defenses Concentrating more on data collection and less on data analysis these indiscriminate attempts to gauge success may actually have hindered the army's ability to evaluate the true outcome of the fight at hand a roadblock that Daddis believes significantly contributed to the many failures that American forces suffered in Vietnam Filled with incisive analysis and rich historical detail *No Sure Victory* is not only a valuable case study in unconventional warfare but a cautionary tale that offers important perspectives on how to measure performance in current and future armed conflict Given America's ongoing counterinsurgency efforts in Iraq and Afghanistan *No Sure Victory* provides valuable historical perspective on how to measure and mismeasure military success

*Combat Operations: Staying the Course October 1967 to September 1968* Erik Villard,United States United States Army,2019-05-15 To many Americans the war in Vietnam was and remains a divisive issue But nearly fifty years after the end of major U S combat operations in Vietnam well over half the U S population is too young to have any direct memory of the conflict The massive American commitment political economic diplomatic and military to the mission of maintaining an independent and non Communist South Vietnam deserves widespread attention both to recognize the sacrifice of those who

served and to remember how those events have impacted our nation U S involvement in Southeast Asia began after World War II when elements of the Vietnamese population fought back against the re imposition of French colonial rule Although the United States generally favored the idea of an independent Vietnam it supported France because the Viet Minh rebels were led by Communists and U S policy at that point in the Cold War sought to contain any expansion of communism France s defeat in 1954 led to the division of Vietnam into a Communist North Democratic Republic of Vietnam and a non Communist South Republic of Vietnam The United States actively supported the latter as it dealt with a growing Communist led insurgent force the Viet Cong aided by the North Vietnamese The initial mission of training South Vietnam s armed forces led to deepening American involvement as the situation grew increasingly dire for the Republic of Vietnam By the time President Lyndon B Johnson committed major combat units in 1965 the United States already had invested thousands of men and millions of dollars in the effort to build a secure and stable Republic of Vietnam That commitment expanded rapidly through 1969 when the United States had over 365 000 Army soldiers out of a total of a half million troops of all services in every military region of South Vietnam with thousands of other Army personnel throughout the Pacific area providing direct support to operations The war saw many innovations including the massive use of helicopters to conduct airmobile tactics new concepts of counterinsurgency the introduction of airborne radio direction finding wide scale use of computers and major advances in battlefield medicine Yet as in most wars much of the burden was still borne by soldiers on the ground who slogged on foot over the hills and through the rice paddies in search of an often elusive foe The enormous military effort by the United States was however matched by the resolve of North Vietnamese leaders to unify their country under communism at whatever cost That determination in the end proved decisive as American commitment wavered in the face of high casualties and economic and social challenges at home Negotiations accompanied by the gradual withdrawal of U S forces led to the Paris Peace Accords in January 1973 effectively ending the American military role in the conflict Actual peace was elusive and two years later the North Vietnamese Army overran South Vietnam bringing the war to an end in April 1975 The vast majority of American men and women who went to Vietnam did so in the uniform of the U S Army They served their country when called many at great personal cost against a backdrop of growing uncertainty and unrest at home This book the twelfth volume of the U S Army s official history of the Vietnam War is dedicated to them Victory in Vietnam Military History Institute of Vietnam,2002-05-01 What was for the United States a struggle against creeping Communism in Southeast Asia was for the people of North Vietnam a great patriotic war that saw its eventual victory against a military Goliath The story of that conflict as seen through the eyes and the ideology of the North Vietnamese military offers readers a view of that era never before seen Victory in Vietnam is the People s Army of Vietnam s own account of two decades of struggle now available for the first time in English It is a definitive statement of the Vietnamese point of view concerning foreign intrusion in their country since before American involvement and it reveals that many of the accepted truths in our own histories of the

war are simply wrong This detailed account describes the ebb and flow of the war as seen from Hanoi It discloses particularly difficult times in the PAVN s struggle 1955-59 when Diem almost destroyed the Communist movement in the South 1961-62 when American helicopter assaults and M 113 armored personnel carriers inflicted serious losses on their forces and 1966 when U S troop strength and air power increased dramatically It also elaborates on the role of the Ho Chi Minh Trail in the Communist effort confirming its crucial importance and telling how the United States came close to shutting the supply line down on several occasions The book confirms the extent to which the North orchestrated events in the South and also reveals much about Communist infiltration accompanied by statistics from 1959 until the end of the war While many Americans believed that North Vietnam only began sending regular units south after the U S commitment of ground forces in 1965 this account reveals that by the time Marines landed in Da Nang in April 1965 there were already at least four North Vietnamese regiments in the South Translator Merle Pribbenow who spent several years in Saigon during the war has sought to render as accurately as possible the voice of the PAVN authors retaining much of the triumphant flavor of the text in order to provide an uncensored feel for the Vietnamese viewpoint A foreword by William J Duiker author of Ho Chi Minh A Life and other books on Vietnam puts both the tone and content of the text in historical perspective United States Army in Vietnam Ronald H. Spector, 1983 **Advice and Support, the Early Years of the United States Army in Vietnam, 1941-1960** Ronald H. Spector, 1985 Finally more than three decades after French colonial forces were crushed at Dien Bien Phu America has a definitive account of its own first military involvements in Vietnam Drawing on recently declassified Pentagon files and hundreds of other official documents historian Ronald H Spector unearths a host of findings about the U S Army s advisory role in Southeast Asia that in 1954 the U S prepared plans to assist the French with atomic weapons that throughout the 1950s Army Chief of Staff Gen Matthew Ridgway opposed almost singlehandedly State Dept demands for massive military intervention that gross ignorance of Vietnamese society language and culture and a dogged Can Do attitude in the field prevented American advisory forces from realistically appraising either the viability of the South Vietnamese army or the soundness of the government it supported Showing that the agonizing truth about Vietnam was apparent fifteen years before the fall of Saigon Advice and Support is crucial to our understanding of how we got into Vietnam why we couldn t get out and what went wrong Book cover p 4 **Engineers at War** Adrian Traas, United States Army, 2019-05-09 The military engineers who supported the U S Army in Vietnam wrote a proud record of achievement that spanned nearly two decades of war Starting with a handful of advisers in the mid 1950s Army engineers landed in force with U S ground units in 1965 and before long numbered more than 10 percent of the U S Army troops committed to the fight Working in one of the world s harshest undeveloped regions and under constant threat from an elusive and determined foe the engineers met every test that came their way They built ports and depots for a supply line that reached halfway around the globe carved airfields and airstrips out of jungle and mountain plateaus repaired roads and bridges to clear the advance for the combat

infantryman and constructed bases for an army whose communications grew in complexity with each passing year They were often found in the thick of the fighting and fought as infantrymen as part of a long tradition of fighting while building When the U S involvement in the Vietnam War began to wind down the engineers were given another demanding mission imparting to the South Vietnamese Army their specialized skills in construction and management They left in place a robust infrastructure to support the South Vietnamese as they vainly struggled for survival against the armored spearheads of the North Vietnamese Army Engineers at War is the eleventh volume published in the United States Army in Vietnam official series Like its companion volumes it forcibly reminds us that the American soldier in Vietnam was courageous infinitely adaptable and tireless in pursuit of the mission For the engineers that mission and their comrades sustained them in the best engineer tradition even as the political and popular will to sustain the fight diminished Their story and dedication should inspire all soldiers as they face a future of sustained operations around the world War in the Villages Ted N.

Easterling,2021-03-15 Much of the history written about the Vietnam War overlooks the U S Marine Corps Combined Action Platoons These CAPs lived in the Vietnamese villages with the difficult and dangerous mission of defending the villages from both the National Liberation Front guerrillas and the soldiers of the North Vietnamese Army The CAPs also worked to improve living conditions by helping the people with projects such as building schools bridges and irrigation systems for their fields In War in the Villages Ted Easterling examines how well the CAPs performed as a counterinsurgency method how the Marines adjusted to life in the Vietnamese villages and how they worked to accomplish their mission The CAPs generally performed their counterinsurgency role well but they were hampered by factors beyond their control Most important was the conflict between the Army and the Marine Corps over an appropriate strategy for the Vietnam War along with weakness of the government of the Republic of South Vietnam and the strategic and the tactical ability of the North Vietnamese Army War in the Villages helps to explain how and why this potential was realized and squandered Marines who served in the CAPs served honorably in difficult circumstances Most of these Marines believed they were helping the people of South Vietnam and they served superbly The failure to end the war more favorably was no fault of theirs On Strategy Harry G.

Summers,1982 Provides convincing answers to the question of what went wrong in Vietnam The 25-year War Bruce

Palmer (Jr.),Bruce Palmer,1984 This work is an analysis of America s military role in Vietnam The US Army in the

Vietnam War 1965-73 Gordon L. Rottman,2008-04-22 This book provides detailed information about how US Army units were organised and operated in America s longest war Vietnam Special Forces veteran Gordon L Rottman examines the different types of infantry battalions and the units that supported them their training and organisation down to platoon level Aspects of the US Army s conventional and unconventional warfare doctrine are also addressed along with a discussion of how replacements were trained and integrated into units Among other areas of the US Army s involvement covered are individual and crew served weapons artillery armoured fighting vehicles transport logistics the complex chain of command and combat

operations      **Avoiding Vietnam** Conrad C. Crane, 2002 As American operations against terrorism spread around the globe to places like Afghanistan and the Philippines an increasing tendency has been for commentators to draw parallels with past experience in Vietnam Even soldiers on the ground have begun to speak in such terms The author analyzes the Army's response to that defeat in Southeast Asia and its long term impact Contrary to the accepted wisdom that nations which lose wars tend to learn best how to correct their mistakes he argues that Americans tried to forget the unhappy experience with counterinsurgency by refocusing on conventional wars While that process eventually produced the powerful force that won the Persian Gulf War it left an Army with force structure doctrine and attitudes that are much less applicable to the peace operations and counterterrorism campaign it now faces The author asserts that the Army must change in order to operate effectively in the full spectrum of future requirements and it is time to reexamine the war in Vietnam He also draws attention to the service's Lessons Learned process and provides insights as to how the experience gained in Operation ENDURING FREEDOM should be analyzed and applied

**Welcome Home** Jeff West, 2020-01-25 Welcome Home The Army and My Vietnam is a series of documentary style stories of a Veteran's experiences in the Army both stateside and during his combat tour in Vietnam From boot camp to his return home and living with the aftermath of his experiences this is a very personal perspective on the Army the war and our society as seen through the eyes of a soldier Welcome Home offers an historically accurate account from someone who served during a time when our country did not support our Veterans or appreciate their service Most of these stories have never been told Bits and pieces now and then have been shared with family and friends but never entirely and never in detail The author's two years in the Army shaped the rest of his life and he decided to share his experiences for other Veterans who have never told their stories This book was written for them his family friends and for himself The book's message is one of hope It is never too late no matter how long it has been or how difficult the road there is always hope Every individual needs to take the necessary steps to change and make things better for themselves Fortunately there is a myriad of resources available today for Veterans of all conflicts Society is now supportive and our government is providing improved care at all levels for our Veterans as are many private organizations Personal note from the author I encourage all Vietnam Veterans to write about their experiences Those days and times are part of our lives and should not be forgotten Unfortunately many of us are dying without sharing these stories My hope is that any Veteran who reads this book would be inspired to write about his or her own stories for their families future generations and themselves The exercise brings clarity and closure to that chapter of our lives
