Around Manhattan Island Other Maritime:

Around Manhattan Island and Other Maritime Tales of New York Brian J. Cudahy, 1997 Cudahy begins with a history of the Circle Line and its forerunners and erstwhile competitors in the around Manhattan sightseeing business Next he gives us the fascinating story of the fastest ocean liner of all time the S S United States The noble history of the New York Fire Department s fire boats is next followed by the story of the Iron Steamboat Company s sidewheelers which ferried passengers to the magical Coney Island from 1881 to 1932 Then there is the tragic 1932 explosion of the steamboat Observation with its parallels to an earlier and even more devastating tragedy at nearly the same spot Finally Cudahy tells in fascinating detail of the New York to Bermuda cruises as they were in yesteryear and as they are today Historical Dictionary of the U.S. Maritime Industry Kenneth J. Blume, 2011-12-22 From the Spanish galleons of the 16th century to the cruise ships and crude oil tankers of the 21st maritime industries have been central to American economic political and cultural life Great American fortunes were built in the maritime industries and the workers in that industry both the sailors on board the ships and the dockworkers at the port contributed significantly to the nation s growing economy The development of interior waterways especially the canal system paved the way for a transformation of inland North America In the Historical Dictionary of the U S Maritime Industry author Kenneth J Blume provides a convenient survey of this important industry from the colonial period to the present day from sail to steam to nuclear power This concise new reference work captures the key features of overseas coastal lake and river shipping and industry An introduction provides an overview of the industry while the dictionary itself contains more than four hundred cross referenced entries on ships shipping companies famous personalities and major ports A number of appendixes including statistics on foreign trade maritime disasters famous ships and major ports supplement the dictionary and a comprehensive bibliography leads the researcher to further sources This book is an excellent access point for students researchers and anyone wanting to know more about the maritime industry in the United States **Going Coastal, New York City** Barbara La Rocco, 2003 An ultra useful guide that brings together all the information necessary to enjoy the waterfront in a compact well organized form Phillip Lopate author of Waterfront A Journey Around Manhattan Use this guide to discover the beaches boardwalks historic sites and marine attractions as well as the limitless opportunities for waterside fun dining and adventure in the five boros of New York Designed for travelers and locals alike Going Coastal New York City offers the best most comprehensive information on what s happening along New York City s over 500 miles of coastline Box Boats Brian J. Cudahy, 2007-12 Fifty years ago on April 26 1956 the freighter Ideal X steamed from Berth 26 in Port Newark New Jersey Flying the flag of the Pan Atlantic Steamship Company she set out for Houston with an unusual cargo 58 trailer trucks lashed to her top deck But they weren t trucks they were steel containers removed from their running gear waiting to be lifted onto empty truck beds when Ideal X reached Texas She docked safely and a revolution was launched not only in shipping but in the way the world trades Today

the more than 200 million containers shipped every year are the lifeblood of the new global economy They sit stacked on thousands of box boats that grow more massive every year In this fascinating book transportation expert Brian Cudahy provides a vivid fast paced account of the container ship revolution from the maiden voyage of the Ideal X to the entrepreneurial vision and technological breakthroughs that make it possible to ship more goods more cheaply than ever before Cudahy tells this complex story easily starting with Malcom McLean Pan Atlantic s owner who first thought about loading his trucks on board His line grew into the container giant Sea Land Services and Cudahy charts its dramatic evolution into Maersk Sealand the largest container line in the world Along the way he provides a concise colorful history of world shipping from freighter types to the fortunes of steamship lines and explores the spectacular growth of global trade fueled by the mammoth ships and new seaborne lifelines connecting Asia Europe and the Americas Masterful maritime history Box Boats shows how fleets of these ungainly ships make the modern world possible with both positive and negative effects It s also a tale of an historic home port New York where old piers lie silent while 40 foot steel boxes of toys and televisions come ashore by the thousands across the bay in New Jersey

How We Got to Coney Island Brian J. Cudahy,2009-08-25 A 150 year history of the planning construction and development of all forms of mass transportation in Brooklyn New York How We Got to Coney Island is the definitive history of mass transportation in Brooklyn Covering 150 years of extraordinary growth Cudahy tells the complete story of the trolleys street cars steamboats and railways that helped create New York s largest borough and the remarkable system that grew to connect the world s most famous seaside resort with Brooklyn New York City across the river and ultimately the rest of the world Includes tables charts photographs and maps Praise for How We Got to Coney Island This is an example of a familiar and decidedly old fashioned genre of transport history It is primarily an examination of the business politics of railway development and amalgamation in Brooklyn and adjoining districts since the mid nineteenth century *The Journal of Transport History*
