Art As Spectacle:

Art as Spectacle Naomi Ritter, 1989 Why do images of entertainers abound in European literature and art since Romanticism From Baudelaire to Picasso from Daumier to Fellini mimes clowns aerialists and jesters recur in major works by continental artists In *Art as Spectacle* Naomi Ritter investigates this phenomenon and offers explanations that transcend the array of works discussed Her analysis implies much about the triangle of creator work and audience that inevitably controls art Although a broadly comparative study underlies *Art as Spectacle* the book focuses mainly on examples from Germany and France Three areas of argument identification primitivism and transcendence account for the performer's ubiquity in the arts of the last two centuries Ritter shows that writers painters choreographers and filmmakers have persistently identified with the entertainer whose roots lie in primitive ritual a source of all art Accordingly the artist also sees the player as morally or spiritually elevated With three chapters on literature a chapter comparing poetry to painting and a chapter each on dance the visual arts and film *Art as Spectacle* offers unprecedented scope on a compelling topic in comparative studies By integrating such varied material into an original commentary on the image of the entertainers this book provides an invaluable resource for all the disciplines it touches

The Art of Spectacle Alanna Conner, 2014 Human nature draws us towards the areas of highest contrast We see this realized in the way that compositions are formed and understood our eye is immediately drawn to the highest contrast the most obvious and clearly expressed or seen But in life these areas of high contrast can act more as distraction than enriching stimuli more substance can be taken in through subtle communication and differences It is in the subtlety of art the attributes not immediately recognized that we see feel the greatest depth

Spectacle architecture suffers from the same desire to be seen and to communicate with absolute clarity The spectacle trend comes with many expenses many of these buildings suffer from reduced functionality excuses of expression becoming part of a person's identity or lending to an architect's star status a fading sense of novelty making the building the destination rather than the contents and their value commodifying or abusing the capitalist nature of the industry as well as showing a general lack of responsibility towards the community that houses the building These detrimental issues seem to be most harmful to the museum buildings that are being constructed A museum is an altruistic symbol of the culture and knowledge of a community Museums started with galleries of private owners who opened spaces in their home to show the art now the sharing of art has become even more public and most of the work viewed in museums is privately owned To see these altruistic symbols suffer from capitalism and the need for fame and notoriety is disheartening This thesis argues that the trend of spectacle architecture in museum design is affecting our impression of the museum and its influence on the community as well as the importance of the contents of these buildings The spectacle character is not an aid to the display and purpose of a museum and in many cases is a hindrance to the museum Through many explorations and subsequent discoveries the characteristics of this argument have been tested The initial search for an empirical answer to this question

proved to be an irrational pursuit and so an adaptable solution was required Referencing other architectural programs and using those principles to the advantage of displaying art This thesis seeks architecture that adapts to the art it displays rather than forcing art to adapt to the architecture that holds it Seventeenth-Century Ballet A multi-art spectacle Ivanna Spencer,2011-03-16 This book contains a selection of research papers presented at the International Interdisciplinary Symposium Seventeenth century Ballet a multi art spectacle which was held at King s College London on 7 August 2010 The purpose of the symposium was to act as an international forum for multidisciplinary research on seventeenth century ballet As far as we are aware this was the first symposium which is specifically aimed to bring together researchers from many disciplines including early music and dance iconography exoticism neo Platonism and European history The ballets created during the period of High Renaissance are undoubtedly among the major masterpieces of the theatrical genre of the era and this can be proved not only in terms of their popularity but also of the high quality craftsmanship and their variety in form Emphasizing this diversity the symposium focuses on the interplay and tensions between discourses continuities and discontinuities and competing images of the seventeenth century ballet in Europe Bibliothèques et musées des arts du spectacle dans le monde Alfred Siemon Golding,1984 **ART OF SPECTACLE.** ,1984 **Transnational Perspectives on the Art of Piero Manzoni and Hélio Oiticica** Lara Demori,2025-08-26 Establishing a missed link between the work of Piero Manzoni and Hélio Oiticica and their respective cultural contexts this book sheds new light on overlooked aspects of these two artists practices particularly focusing on the shift from painting to performance in the long 1960s Lara Demori envisions a transnational juxtaposition a conceptual dialogue that discloses overlooked resonances between the work and the modus operandi of both artists repositioning claims of national exceptionalism within a web of constellated practices This book proposes their oeuvre as heterogeneous critical models to unpack categories of thought used to analyse the postwar decades Tabula Rasa Anti Art Open Work and self Marginalisation and Freedom These in turn are charged with specific histories and offer new paradigms for the formal and social inventions perpetuated by the art of Manzoni Oiticica and fellow artists in the context of the d tournaments that crossed the 1960s on a global scale This book will be of interest to scholars working in art history modernism and post modernism Italian studies and Brazilian studies **Recodings** Hal Foster,1999 A Village Voice Best Book and a lucid and provocative work that allows us to glimpse stirrings and upheavals in the hothouse of modern art Los Angeles Times **A Companion to Roman Art** Barbara E. Borg,2019-11-04 A Companion to Roman Art encompasses various artistic genres ancient contexts and modern approaches for a comprehensive guide to Roman art Offers comprehensive and original essays on the study of Roman art Contributions from distinguished scholars with unrivalled expertise covering a broad range of international approaches Focuses on the socio historical aspects of Roman art covering several topics that have not been presented in any detail in English Includes both close readings of individual art works and general discussions Provides an overview of main aspects of the subject and an introduction to current debates in the field

Surpassing the Spectacle Carol Becker, 2001-12-17 In her newest book leading social critic Carol Becker offers a timely analysis of the nature of art and its role in politics and society Completed just before the September 11 2001 World Trade Center catastrophe *Surpassing the Spectacle* is now especially relevant in its analysis of the spectacle society that was omnipresent before that fatal day This book is remarkably prescient of the new concerns that have now become foremost in our thoughts since the attack This collection of essays explores such topics as public memorials America's attempt to hold onto a sense of security while faced with the reality of international terrorists living within our own cities the South African Truth and Reconciliation Commission restorative justice and issues of freedom of expression as they relate to incidents such as New York Mayor Giuliani's quest to ban Chris Ofili's painting of The Holy Virgin Mary at the Brooklyn Museum The essays cohere around Becker's central concerns the education and role of artists in a post post modern climate controversies over public space iconography memorializing and the myth of the global citizen Throughout Becker works to reconstruct a vision of humanity that incorporates and hopefully moves us beyond a dystopian moment when we no longer were able to use words such as humane accountable or the public good without seeming nostalgic and romantic Becker raises the question of the place of art and the function of public intellectuals in a society desperately in need of creativity and leadership The book is written in clear and accessible prose which nonetheless looks at the issues philosophically and does not sacrifice any of the subtleties of thought necessary to contextualize and surpass the spectacle of contemporary U S society
