Artist-Teacher Practice and the Expectation of an Aesthetic Life Carol Wild, 2022-07-08 This book explores why and how the personal creative practice of arts teachers in school matters It responds to ethnographic research that considers specific works of art created by teachers within the context of their classrooms Through a classroom based ethnographic investigation the book proposes that the potential impact of artist teacher practice in the classroom can only be understood in relation to the flows of power and policy that concurrently shape the classroom It shows how artist teacher practice functions as a creative practice of freedom tending to the present and future aesthetic life of the classroom countering the effects of neoliberal schooling and austerity politics The book questions what the artist teacher can produce within that context Through the unique focus on artist teacher practice the book explores the changing nature of the classroom and the social and political dimensions of the school It will be key reading for researchers and postgraduate students of arts education critical pedagogy teacher identity and aesthetics It will also be of interest to art and design educators **General**

Thomas Rimer, 2011-10-31 Research outside Japan on the history and significance of the Japanese visual arts since the beginning of the Meiji period 1868 has been with the exception of writings on modern and contemporary woodblock prints a relatively unexplored area of inquiry In recent years however the subject has begun to attract wide interest As is evident from this volume this period of roughly a century and a half produced an outpouring of art created in a bewildering number of genres and spanning a wide range of aims and accomplishments Since Meiji is the first sustained effort in English to discuss in any depth a time when Japan eager to join in the larger cultural developments in Europe and the U S went through a visual revolution Indeed this study of the visual arts of the nineteenth and twentieth centuries suggests a fresh history of modern Japanese culture one that until now has not been widely visible or thoroughly analyzed outside that country In this extensive collection which includes some 190 black and white and color reproductions

scholars from Japan Europe Australia and America explore an impressive array of subjects painting sculpture prints fashion design crafts and gardens The works discussed range from early Meiji attempts to create art that referenced Western styles to postwar and contemporary avant garde experiments There are in addition substantive investigations of the cultural and intellectual background that helped stimulate the creation of new and shifting art forms including essays on the invention of a modern artistic vocabulary in the Japanese language and the history of art criticism in Japan as well as an extensive account of the career and significance of perhaps the best known Japanese figure concerned with the visual arts of his period Okakura Tenshin 1862 1913 whose Book of Tea is still widely read today Taken together the essays in this volume allow readers to connect ideas and images thus bringing to light larger trends in the Japanese visual arts that have made possible the vitality range and striking achievements created during this turbulent and lively period Contributors Stephen Addiss Chiaki Ajioka John Clark Ellen Conant Mikiko Hirayama Michael Marra Jonathan Reynolds J Thomas Rimer Audrey Yoshiko Seo Eric C Shiner Lawrence Smith Shuji Tanaka Reiko Tomii Mayu Tsuruya Toshio Watanabe Gennifer Weisenfeld Bert Winther Tamaki Emiko Yamanashi **Official Gazette of the United States Patent and Trademark Office** ,2001
