Rudolf Steiner,2023-10-03 8 lectures Oslo and Dornach May 18 June 9 1923 CW 276 Having remained stationary we can no  
longer see the spiritual in the physical we consider only the physical as such This is materialism A current has entered  
human evolution that is if I may use the expression hostile to development Humanity shuns the coining of new concepts it  
prefers to continue on with the old We must overcome this hostility toward development When we instead become friends of  
development then we will acquire a quite natural relationship to anthroposophical spiritual development and pass over from  
antiquated needs to the truly modern need of humanity namely to raise ourselves to the spiritual Rudolf Steiner May 27 1923  
In these inspired lectures from 1923 Rudolf Steiner weaves the different art forms including painting architecture and music  
into a grand tapestry of human experience and expression In the process he reveals how each artistic medium contains its  
own mysteries how architecture arises out of the soul s need to transition from the spatial to the spiritual world after death  
how the art of costuming arises out of the soul s pre earthly experiences in the world of spirit and is thus an expression in  
color and form of the soul s original nature how sculpture emerges from an inner sense for the creative formative forces of  
the etheric body how painting can overcome spatial perspective through a new relationship to the world of colors through  
color perspective how music can receive a new direction from the depth dimension of the single tone which expands into  
melody and harmony how poetry can be deepened through an inner grasp of the qualities inherent in recitation and

declamation through creative speech and how the new art of eurhythmy arising out of the movement activity of the human archetype stands midway between mime indicative gesture and dance ecstatic gesture as an art of expressive gesture Thus Steiner outlines a path toward the reunion of that ancient trinity science truth art beauty and religion goodness It was in the womb of the ancient mysteries where knowledge was not only a matter for the mind but was carried over into religious rites that the arts had their origin Today we learn facts and figures and believe we have understood reality To an ancient humanity this intellectual mode of understanding would have seemed lifeless and sterile In the ancient world knowledge became lived artistic experience and religious deed Modern humanity must once again give wings to knowledge must seek a deepening of the cognitive life through transformative artistic feeling if we are to find our way out of our world crisis which is at its core a crisis of the soul This remarkable volume packed with profound and far reaching insights bears within it the seeds for the renewal of the arts in our time Includes four color plates of Rudolf Steiner s blackboard drawings This book is a translation of *Das K nstlerische in seiner Weltmission* 4th ed Rudolf Steiner Verlag 2002 GA 276 Cover Image Bright Noontday by David Newbatt from Goethe *The Fairy Tale of the Green Snake and the Beautiful Lily* Wynstones Press 2006 *Beyond Babylon* Metropolitan Museum of Art (New York, N.Y.),2008 This important volume describes the art created in the second millennium B C for royal palaces temples and tombs from Mesopotamia Syria and Anatolia to Cyprus Egypt and the Aegean
