Zolomij,1990-01-01      [Imagine!](#) Patrick G. Kelley,2020-01-15 Between the 1930s and 1980s American automotive design reached new heights quietly staking out a place as an art form in its own right This innovative period saw the birth of concept cars whose appeal lay not so much with the power of their engines or the luxury of their added features but in the sheer beauty and novelty of their overall design Automakers employed artists from outside the industry with the primary goal of creating bold new designs whose eye appeal would prove irresistible to the public In their heyday thousands of these prototype sketches were created but nearly all were either lost or deliberately destroyed by the

car companies to minimize the risk of copycats In IMAGINE Patrick Kelley presents a wealth of eye catching car designs more than 230 images from eighty seven different artists that he has spent over fifteen years gathering and assembling into the Kelley Collection These artworks are rare survivors vivid illustrations of the singular work of the men and woman who drew and designed the vehicles from their art school days through their later employment with the auto industry s Big Three GM Chrysler and Ford IMAGINE is a tender tribute to the artists contributions and imagination transporting us back to a time in US commercial history when the wildest dreams were encouraged and there was nothing but the open road ahead

**Automotive Prosthetic** Charissa N. Terranova,2014-01-15 In the twenty first century we are continually confronted with the existential side of technology the relationships between identity and the mechanizations that have become extensions of the self Focusing on one of humanity s most ubiquitous machines Automotive Prosthetic Technological Mediation and the Car in Conceptual Art combines critical theory and new media theory to form the first philosophical analysis of the car within works of conceptual art These works are broadly defined to encompass a wide range of creative expressions particularly in car

based conceptual art by both older established artists and younger emerging artists including Ed Ruscha Martha Rosler Richard Prince Sylvie Fleury Yael Bartana Jeremy Deller and Jonathan Schipper At its core the book offers an alternative formation of conceptual art understood according to technology the body moving through space and what art historian curator and artist Jack Burnham calls relations This thought provoking study illuminates the ways in which the automobile becomes a naturalized extension of the human body incarnating new forms of car art and spurring a technological reframing of conceptual art Steeped in a sophisticated take on the image and semiotics of the car the chapters probe the politics of materialism as well as high low debates about taste culture and art The result is a highly innovative approach to contemporary intersections of art and technology

Auto-America : the Automobile and American Art, Circa 1900-1950  
Jerry N. Smith, Charles C. Eldredge, 2012 This dissertation explores the theme of the automobile in American visual art in the first half of the twentieth century specifically as it appears in painting and printmaking My analysis explores various ways in which artists responded to the automobile and developed auto related iconography The study includes consideration of several artists use of automobiles as well as depictions made of and from the road P iii
