More and more teachers of young children are being asked to develop their curriculum according to standards. This essential resource will guide educators as they grapple with a plethora of issues, questions, and practices surrounding the use of standards in the early childhood classroom. Carol Seefeldt, well-known educator and bestselling author, offers teachers an overview of the standards movement, describes the status of standards in early education, presents the issues around the design and selection of standards, and provides practical strategies for effectively implementing standards with young children, preschool through the early primary grades. This book provides both the background knowledge and a working understanding of standards to help teachers successfully judge and select standards, design appropriate ways of using and working with standards, and develop appropriate assessment strategies. Illustrated with children's work, this *How to Work with Standards* provides practical illustrations of how standards can be used to benefit early childhood classrooms, including many sample activities. Demonstrates how to work with standards in the separate subject areas of the sciences, arts, language, and literacy, mathematics, and social studies, offers ideas for including all children, such as those with special needs and those just learning English, and describes a project, *Children Study Their Play Yard*, illustrating how thematic, standards-based, problem-solving learning can be integrated into the total curriculum. **El-Hi Textbooks & Serials in Print, 2003**, 2003 **Subject Guide to Children's Books in Print 1997** Bowker Editorial Staff, R. R. Bowker Publishing, 1996-09 *Paperbound Books in Print*, 1992 *Brain and Learning* Marlin Languis, Tobie Sanders, Steven Tipps, 1980 **Books in Print**, 1994 **A Child Goes Forth** Barbara J. Taylor, 2004
For Curriculum in Early Childhood courses. With its coverage organized around eleven areas of experience that are critical to a child's development, this practical text shows prospective teachers of children ages 2 to 5 how the basic characteristics of young children should influence instructional planning, curriculum, and expectations. Coverage incorporates the best of traditional methods and the brightest ideas of today's cutting-edge thinkers into a cohesive presentation that emphasizes the individuality of each child and the idea that a relaxed, unstructured, yet carefully planned atmosphere is most conducive to effective teaching. The result is a volume of solid practical advice and encouragement for students who love children and want to help them go forth successfully. **Connecting Emergent Curriculum and Standards in the Early Childhood Classroom** Sydney L. Schwartz, Sherry M. Copeland, 2010-07-29
The most pressing challenge in early childhood education today is to find a way to meet the standards within a developmentally appropriate approach. In this book, two active early
