Duane Hanson Virtual Reality:

Duane Hanson Christine Giles, Elizabeth Hayt, Katherine Plake Hough, 2001-03-01 [Duane Hanson: Virtual Reality](#)
Palm Springs Desert Museum, 2000 **Duane Hanson** Duane Hanson, 2001 Inspired by the award winning poet and actor s
acclaimed one man play a powerful coming of age memoir that reimagines masculinity for the twenty first century male
Award winning poet actor and writer Carlos Andr s G mez is a supremely gifted storyteller with a captivating voice whose
power resonates equally on the live stage and on the page In one of his most moving spoken word poems G mez recounts a
confrontation he once had after accidentally bumping into another man at a club Just as they were about to fight G mez
experienced an unexplainable surge of emotion that made his eyes well up with tears Everyone at the scene jumped back as
if crying or showing vulnerability was the most insane thing that G mez could possibly have done Like many men in our
society G mez grew up believing that he had to be ready to fight at all times treat women as objects and close off his
emotional self It wasn t until he discovered acting that he began to see the true cost of squelching one s emotions and how
aggression dominates everything that young males are taught Statistics on graduation rates employment and teen and young
adult suicide make it clear that the young males in our society are at a crisis point but G mez seeks to reverse these ominous
trends by sharing the lessons that he has learned Like Hill Harper s Letters to a Young Brother Man Up will be an agent for
positive change galvanizing men but also mothers girlfriends wives and sisters to rethink and reimagine the way all men
interact with women deal with violence handle fear and express emotion **Scale in Contemporary Sculpture** Rachel
Wells, 2017-07-05 The first book to devote serious attention to questions of scale in contemporary sculpture this study
considers the phenomenon within the interlinked cultural and socio historical framework of the legacies of postmodern
theory and the growth of global capitalism In particular the book traces the impact of postmodern theory on concepts of
measurement and exaggeration and analyses the relationship between this philosophy and the sculptural trend that has
developed since the early 1990s Rachel Wells examines the arresting international trend of sculpture exploring scale
including American precedents from the 1970s and 1980s and work by the Young British Artists Noting that the emergence
of this sculptural trend coincides with the end of the Cold War Wells suggests a similarity between the quantitative ratio of
scale and the growth of global capitalism that has replaced the former status quo of qualitatively opposed systems This study
also claims the allegorical nature of scale in contemporary sculpture outlining its potential for critique or complicity in a
system dominated by quantitative criteria of value In a period characterised by uncertainty and incommensurability Wells
demonstrates that scale in contemporary sculpture can suggest the possibility of and even an unashamed reliance upon
comparison and external difference in the construction of meaning **The Grove Encyclopedia of American Art** Joan M.
Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America
with over 2300 entries **Lesson Plans that WOW!** Ed McCormick, A.L.I., Stephanie Dyke, Jon Weiman, 2007-10 Contains
