Grammar & Corpora 2009 Marek Konopka, 2011 *Morphologie* G. E. Booij, Christian Lehmann, Joachim Mugdan, 2000

This series of HANDBOOKS OF LINGUISTICS AND COMMUNICATION SCIENCE is designed to illuminate a field which not only includes general linguistics and the study of linguistics as applied to specific languages but also covers those more recent areas which have developed from the increasing body of research into the manifold forms of communicative action and interaction. For classic linguistics there appears to be a need for a review of the state of the art which will provide a reference base for the rapid advances in research undertaken from a variety of theoretical standpoints while in the more recent branches of communication science the handbooks will give researchers both an overview and orientation. To attain these objectives the series will aim for a standard comparable to that of the leading handbooks in other disciplines and to this end will strive for comprehensiveness, theoretical explicitness, reliable documentation of data and findings and up to date methodology. The editors both of the series and of the individual volumes and the individual contributors are committed to this aim. The languages of publication are English, German and French. The main aim of the series is to provide an appropriate account of the state of the art in the various areas of linguistics and communication science covered by each of the various handbooks; however, no inflexible pre-set limits will be imposed on the scope of each volume. The series is open-ended and can thus take account of further developments in the field. This conception coupled with the necessity of allowing adequate time for each volume to be prepared with the necessary care means that there is no set time-table for the publication of the whole series. Each volume will be a self-contained work complete in itself. The order in which the handbooks are published does not imply any rank-ordering but is determined by the way in which the series is organized. The editor of the whole series enlists a competent editor for each individual volume. Once the principal editor for a volume has been found, he or she then has a completely free hand in the choice of co-editors and contributors. The editors plan each volume independently of the others, being governed only by general formal principles. The series editor only intervenes where questions of delineation between individual volumes are concerned. It is felt that this *modus operandi* is best suited to achieving the objectives of the series, namely to give a competent account of the present state of knowledge and of the perception of the problems in the area covered by each volume.

**Grammatikkenntnisse für Rechtschreibregeln?** Sabine Mayr, 2011-12-07 Welche Rechtschreibregeln verlangen weniger Grammatikkenntnisse von Schreibenden, die alten oder die reformierten? Sabine Mayr untersucht die Regelverzeichnisse dreier Generationen alter und neuer Rechtschreibwörterbücher Duden 20. Aufl. 1991 und 22. Aufl. 2000 Bertelsmann 1999 darauf hin, welche grammatischen Fachausdrücke sie als bekannt voraussetzen, wo Verständlichkeitsprobleme liegen und ob bzw. wie diese gelöst werden können. z.B. welche Grammatik weiterhilft. Der Vergleich zeigt, dass mit der Reform die Regelverständlichkeit etwas verbessert worden ist.

**Grammar Between Norm and Variation** Alexandra N. Lenz, 2010. The articles collected in this volume offer the most various access to the discussed questions on

norm and variation In their entirety they reflect the current discussion of the topic Focusing on the object languages German and English ensures a high level of topical consistency On the other hand the four large topic areas emergence and change of norms and grammatical constructions relationship of codes of norms and real language usage competition of standard and non standard language norms and subsistent norms of minority languages and institutionalised second language varieties cover a large range of relevant issues thereby certainly giving an impetus to new and further investigations

Wortartenklassifikationen der KMK-Liste und Dudengrammatik. Eine Synopse Jörg Schunk, 2023-04-28 Studienarbeit aus dem Jahr 2023 im Fachbereich Germanistik Linguistik Note 2,3 Technische Universität Darmstadt Sprach und Literaturwissenschaft Veranstaltung Syntax Sprache Deutsch Abstract Diese Hausarbeit wurde als Synopse demzufolge einer vergleichenden Gegenüberstellung in diesem Falle der KMK Liste und Dudengrammatik erstellt Zu diesem Zweck wurde eine Dokumentenanalyse angefertigt die in den folgenden Kapiteln ersichtlich wird Diese Dokumentenanalyse beschäftigt sich insbesondere mit einer Wortartenklassifikation Ein Vergleich bietet sich an dieser Stelle an weil es sich an dieser Stelle um zwei unterschiedliche Institutionen handelt Zum einen wird das Verzeichnis grundlegender grammatischer Fachausdrücke genannt Dieses Verzeichnis hier dargestellt als die Liste der Kultusministerkonferenz KMK Liste welche früher stark kritisiert wurde Als Hauptkritikpunkte gelten der absichtliche Verzicht auf ein Grammatikmodell sowie die unterschiedlichen Definitionskriterien innerhalb der KMK Liste Diese Auffassung wurde damit begründet dass keinem Grammatikmodell ein Vorzug gewährt werden sollte Diese Entscheidung hatte allerdings zur Folge dass in der Schule genauer gesagt im Deutschunterricht auf jegliche grammatischen Erkenntnisse verzichtet werden muss Zwar haben die Schülerinnen nun bundesweit eine einheitliche Terminologie die allerdings nicht gewährleistet dass die verwendeten Termini überall in der Bundesrepublik begrifflich gleich sind Zum anderen die Dudengrammatik diese ist seit 1935 das Standardwerk zur deutschen Grammatik Die Dudengrammatik ist im Gegensatz zur KMK Liste ein Grammatikmodell Dieses Jahr wurde die 10. Auflage der Dudengrammatik neu verfasst und in dieser Hausarbeit verwendet wurde Die Anwendungsbereiche einer umfassenden Grammatik sind laut Duden vielfältiger geworden Die Dudengrammatik dient als multiperspektivische Auskunft und Nutzergrammatik mit der Zielsetzung damit zur Vertiefung und Erweiterung des Wissens über das Gegenwartsdeutsche beizutragen Deshalb beschreibt der neue Grammatikduden das systematische Sprachsystem dessen Struktur und die Bedeutung und Verwendung von sprachlichen Einheiten *Duden, Grammatik der deutschen Gegenwartssprache* Günther Drosdowski, Peter Eisenberg, 1998 Grammatiktheorie und Empirie in der germanistischen Linguistik Angelika Wöllstein, Peter Gallmann, Mechthild Habermann, Manfred Krifka, 2018-07-23 Mit Fragestellungen und kritischen Diskussionen zu Paradigmen Methoden und Zielen stellt der Sammelband eine Positionsbestimmung zur Grammatiktheorie und Empirie in der germanistischen Linguistik dar Die Beiträge umfassen ein breites Spektrum an Themen zwischen deskriptiver Vollständigkeit und grammatischer Modellierung die seit einiger Zeit die Diskussion bestimmen Entwicklungen

This book delivers the first comprehensive study on German modal verbs which summarises and critically reflects the discussion of the last 500 years checks these findings against large corpus data and is accessible to the English reader It is shown that non epistemic modal verbs modify events whereas their epistemic counterparts modify the proposition and how the latter developed from the former *Exclamative Sentences - a Basic Sentence Type?* Phyllis Wiechert, 2007-08 Seminar paper from the year 2004 in the subject English Language and Literature Studies Linguistics grade 1.7 Free University of Berlin Institut für Englisch Philologie course Understanding English German Contrasts language English abstract The grammatical concepts for the basic sentence types in German and English are established and confirmed in various grammars Each grammar differentiates between declarative interrogative and imperative sentence But when it comes to the classification of exclamative sentences different and partly excluding concepts can be found Some grammarians regard exclamative sentences as an individual sentence type whereas others define exclamative sentences as a special case of one of the other three basic sentence types The purpose of this paper is to try to find an answer to the controversial question whether exclamative sentences are a basic sentence type For this reason an analysis of German and English grammars and research papers dealing with the classification of exclamative sentences is necessary The analysis will focus on the following questions and problems Is there a sentence type exclamative sentence which can be unambiguously characterised and identified If so can exclamative sentences be regarded as a basic sentence type alongside declarative interrogative and imperative sentences If not what are exclamative sentences Do they belong to the basic sentence types or are they a minor sentence type The analysis will proceed in the following fashion First I will analyse German grammars and papers regarding exclamative sentences including their use and meaning Second I will continue the analysis with English grammars and papers A summary after each part will restate the results of the analysis Third in a concluding section the results will be restated shortly The gained information from the other sections will be used to answer the initial question whether there is an individual excla
