The Heart of the Forest Abi Cooper,2021-07-07 The Heart of the Forest Book One of the Dragon Valley Series By Abi Cooper The amulet of the last queen was meant to be a symbol of hope and unity Shattered in the devastating war brought on by ancient monsters the pieces representing the seven races were divided amongst their people becoming broken reminders of the past Now with yet another war looming on the horizon old foes are rising once again to finish what they had started The resurgence of dark power causing a shift in the valley A young woman must restore the amulet if there is to be peace in the land once again But to do so she will first have to find the lost pieces and uncover the truth of its nature The fate of the world depends on it but will it be enough to stop the demon who stands against her With the help of new friends as well as old enemies she just might have a chance

Pertile,2019-02-15 Feeling Faint is a book about human consciousness in its most basic sense the awareness at any given moment that we live and feel Such awareness it argues is distinct from the categories of selfhood to which it is often assimilated and can only be uncovered at the margins of first person experience What would it mean to be conscious without being a first person to be conscious in the absence of a self Such a phenomenon subsequently obscured by the Enlightenment identification of consciousness and personal identity is what we discover in scenes of swooning from the Renaissance consciousness without self consciousness reconceived as what Fredric Jameson calls a registering apparatus for transformed states of being Where the early modern period has often been seen in terms of the rise of self aware subjectivity Feeling Faint argues that swoons faints and trances allow us to conceive of Renaissance subjectivity in a different guise as the capacity of the senses and passions to experience regulate and respond to their own activity without the intervention of first person awareness In readings of Renaissance authors ranging from Montaigne to Shakespeare Pertile shows how self loss affords embodied consciousness an experience of itself in a moment of intimate vitality which precedes awareness of specific objects or thoughts an experience with which we are all familiar and yet which is tantalizingly difficult to pin down The Literary Digest ,1916 **The Herald of Asia** ,1921
