Problems and Achievements of a Contested Concept** Linda Vuskane,2020-01-17 Essay from the year 2011 in the subject Politics General and Theories of International Politics grade 87 Liverpool John Moores University course Political Ideology language English abstract This essay presents an analysis of the highly contested concept of equality While it will touch on

the issues surrounded basic equalities the main focus will be on the concept and achievement of political equality and the problems associated with it The essay concludes that perhaps an absolute equality in any terms is impossible Different forms of equality influence each other hence achieving one form of equality may prohibit achieving another Many inequalities still exist today in any democratic country not to mention those inequalities of people living under non democratic regimes However change is happening as shown by the evolution of the concept of equality And although the achievement of political equality in practice is undermined by the socioeconomic inequalities still existing in all societies political equality is nevertheless an important goal which we have to strive for

Civil War is Not a Stupid Thing Christopher Cramer,2006 This book takes issue with two common perspectives on violence and war The first is the liberal interpretation according to which war is exclusively negative in its effects and peace is easily achieved through democratisation and free trade In this view modern liberal market democracies have outgrown violence and only resort to it in self defence The second is a romantic utopian view of violence Transposed into political rhetoric these two views are often directly opposed as they are nowadays in Iraq and in the War on Terror Cramer s book forges an alternative way of understanding the role of violence in the transition to capitalism and a global economy
