Creative Strategy Chris Bilton, Stephen Cummings, 2010-04-26 People tend to think of creativity and strategy as opposites

This book argues that they are far more similar than we might expect More than this actively aligning creative and strategic thinking in any enterprise can enable more effective innovation entrepreneurship leadership and organizing for the future By considering strategy as a creative process and vice versa the authors define creative strategy as a mindset which switches between opposing processes and characteristics and which drives every aspect of the business The authors draw experiences and cases from across this false divide from the music industry sports fashion Shakespearean theatre companies creative and media organizations and dance as well as what we might regard as more mundane providers of mainstream products and services to uncover the creative connections behind successful strategy Creative Strategy is a talisman for those looking to take a new path Matt Hardisty Strategy Director Mother Advertising It has been said that business is a hybrid of dancing and calculation the former incorporating the creative within a firm the latter the strategic Bilton and Cummings show how these apparently contradictory processes can be integrated Their insights about how firms can create to strategize and strategize to create are informative for managers and management scholars alike Jay Barney Professor and Chase Chair of Strategic Management Fisher College of Business The Ohio State University In today s world new thinking creativity is required to tackle long standing problems or address new opportunities The trouble is few organizations understand how to foster and apply creativity at least in any consistent manner This book provides new insights into just how that can be done It moves creativity from being just the occasional and fortuitous flash of inspiration to being an embedded feature of the way the organization is run Sir George Cox Author of the Cox Review of Creativity in Business for HM Govt Past Chair of the Design Council

Science and Art Symposium 2000 A. Gyr, Petros D. Koumoutsakos, U.
