Dutch Moderne Graphic Design From De Stijl To Deco:

Dutch Moderne Steven Heller, Louise Fili, 1994-04 Dutch Moderne examines a little charted genre of Dutch graphic design during the 20s and 30s. The stylistic movements of the period from De Stijl to art deco played a vital role in bringing the concepts of the modern movement into the commercial world. A synthesis of cubist and ancient Egyptian and Mayan forms, art deco quickly spread throughout post World War I France, Germany, England, Italy, and Eastern Europe before appearing in Holland. And yet despite its comparatively late start, Dutch designers enthusiastically embraced the style for its contemporary feel, elegance, and streamlined aesthetic as an alternative to staid traditional and outrageous revolutionary graphic approaches. The style influenced virtually all forms of Dutch commercial art from magazines, newspapers, and posters to trademarks and advertisements. Dutch Moderne features over 500 of these designs, many of which have never before been published in the United States by scores of designers, both renowned and anonymous. These unearthed artifacts of Dutch commercial design reveal the rich legacy of an indigenous style. This book is an essential resource for graphic designers, students of design, and pop culture history aficionados alike.

Typology Steven Heller, Louise Fili, 1999-06 In *Typology*, Steven Heller and Louise Fili, two of the most respected designers working today, cover everything from the classic elegance of the late 19th century to the fractured hypermedia of today.

Paul Rand Michael Kroeger, 2012-08-10 As one of the most influential and inspirational graphic designers of the twentieth century, Paul Rand defined modern American graphic design. His iconic logo designs for IBM, UPS, and the ABC television network distilled the essences of modernity for his corporate patrons. His body of work includes advertising, poster, magazine, and book designs characterized by simplicity and a wit uniquely his own. His ability to discuss design with insight and humor made him one of the most revered design educators of our time. This latest volume of the popular *Conversations with Students* series presents Rand's last interview, recorded at Arizona State University one year before his death in 1996. Beginners and seasoned design professionals alike will be informed by Rand's words and thoughts on varied topics ranging from design philosophy to design education.

Italian Art Deco Steven Heller, Louise Fili, 1993 A sophisticated addition to Chronicle Books' popular design library, this lavishly illustrated volume offers a unique survey of Italian commercial graphic design during a period of both creative artistic vitality and extreme political turmoil. The first English language book to showcase the bold typography and streamlined imagery of modern Italian design motifs on commercial products of the day, this fascinating and important resource for designers, history buffs, and collectors includes a discussion of the Futurist influence on the Italian Art Deco style and the success of such individualized expression despite a ruthless Fascist regime.
