Dying Inside:

Dying Inside Benjamin Dov Fleury-Steiner, 2008-10-10 The HIV men incarcerated in Limestone Prison's Dorm 16 were put there to be forgotten Not only do Benjamin Fleury Steiner and Carla Crowder bring these men to life Fleury Steiner and Crowder also insist on placing these men in the middle of critical conversations about health policy mass incarceration and race Dense with firsthand accounts *Dying Inside* is a nimble far ranging and unblinking look at the cruelty inherent in our current penal policies Lisa Kung Director Southern Center for Human Rights The looming prison health crisis documented here at its extreme is a shocking stain on American values and a clear opportunity to rethink our carceral approach to security Jonathan Simon University of California Berkeley *Dying Inside* is a riveting account of a health crisis in a hidden prison facility Michael Musheno San Francisco State University and coauthor of *Deployed* This fresh and original study should prick all of our consciences about the horrific consequences of the massive carceral state the United States has built over the last three decades Marie Gottschalk University of Pennsylvania and author of *The Prison and the Gallows* An important bold and humanitarian book Alison Liebling University of Cambridge Fleury Steiner makes a compelling case that inmate health care in America's prisons and jails has reached the point of catastrophe Sharon Dolovich University of California Los Angeles Fleury Steiner's persuasive argument not only exposes the sins of commission and omission on prison cellblocks but also does an excellent job of showing how these problems are the natural result of our nation's shortsighted and punitive criminal justice policy Allen Hornblum Temple University and author of *Sentenced to Science* *Dying Inside* brings the reader face to face with the nightmarish conditions inside Limestone Prison's Dorm 16 the segregated HIV ward Here patients chained to beds share their space with insects and vermin in the filthy drafty rooms and contagious diseases spread like wildfire through a population with untreated or poorly managed at best HIV While Dorm 16 is a particularly horrific human rights tragedy it is also a symptom of a disease afflicting the entire U S prison system In recent decades prison populations have exploded as Americans made mass incarceration the solution to crime drugs and other social problems even as privatization of prison services especially health care resulted in an overcrowded underfunded system in which the most marginalized members of our society slowly wither from what the author calls lethal abandonment This eye opening account of one prison's failed health care standards is a wake up call asking us to examine how we treat our forgotten citizens and compelling us to rethink the American prison system in this increasingly punitive age *Dying Inside* Robert Silverberg, 2009-03-03 In 1972 Robert Silverberg even then an acknowledged leader in the science fiction field published a book that was immediately hailed as a masterpiece More than three decades later *Dying Inside* has stood the test of time and has been recognized as one of the finest novels the field has ever produced Never wasting a word Silverberg persuasively shows us what it would be like to read minds painting an unforgettable portrait of a man shaped by that unique power a power he is now inexorably losing Acclaimed upon first publication by SF critics and mainstream reviewers alike

Thomasma, 1998-08-31. In the Netherlands, euthanasia is legal, and doctors can openly and intentionally end the life of their patients. This book addresses the debate among Dutch physicians, policy makers, lawyers, and bioethicists, as well as families, using academic papers as well as personal experiences.

Dying in Faith J. Judson Buck, 1855. *Ministry to the Sick and Dying in the Late Medieval Church* Thomas M. Izbicki, 2023-09. The focus of this volume is on ministry to the sick and dying in the later Middle Ages, especially providing them with the sacraments. Medieval writers linked illness to sin and its forgiveness. The priest as physician of souls was expected to heal the soul, preparing it for the hereafter. His ministry might also effect healing of bodies when that healing did not endanger the soul. This book treats how a priest prepared to visit sick persons and went to them in procession with the Eucharist and oil of the sick. The priest was to comfort the patient and, if death was imminent, prepare the soul for the hereafter. Canon law, theology, and ritual sources are employed. Three sacraments: penance, viaticum, final communion, and extreme unction (anointing of the sick) are treated in detail. Sickbed confession was designed to forgive the ailing person's mortal sins. A priest could absolve a dying person of all sins, even those reserved to a bishop or the pope. Viaticum was to strengthen a suffering Christian for life's last conflict, that between angels and demons, for the soul of the dying person. The deathbed thus was a spiritual battlefield. Extreme unction was reserved for those in danger of death, relieving the soul of venial sins or the remains of sin, even after confession and absolution. The commendatio animae (commendation of the soul), used with the dying, was to usher the soul into the afterlife. Many works have been written about attitudes toward death, dying, and the afterlife in the Middle Ages. Likewise, there is a good deal of literature about individual sacraments. This study aims at bridging between these literatures, with a focus on the priest and parishioner, in both theory and practice at the sickbed.
