Strategic Logic of Suicide Terrorism, (by) Robert Pape Robert Pape, 2005 *Gender and the Governance of Terrorism and Violent Extremism* Ann-Kathrin Rothermel, Laura J. Shepherd, 2023-05-22 This book brings together a variety of innovative perspectives on the inclusion of gender in the governance of counter terrorism and violent extremism Several global governance initiatives launched in recent years have explicitly sought to integrate concern for gender equality and gendered harms into efforts to counter terrorism and violent extremism CT CVE As a result commitments to gender sensitivity and gender equality in international and regional CT CVE initiatives in national action plans and at the level of civil society programming have become a common aspect of the multilevel governance of terrorism and violent extremism In

light of these developments there is a need for more systematic analysis of how concerns about gender are being incorporated in the governance of counter terrorism and violent extremism and how it has affected gendered practices and power relations in counterterrorism policy making and implementation Ranging from the processes of global and regional integration of gender into the governance of terrorism via the impact of the shift on government responses to the return of foreign fighters to state and civil society led CVE programming and academic discussions the essays engage with the origins and dynamics behind recent shifts which bring gender to the forefront of the governance of terrorism This book will be of great value to researchers and scholars interested in gender governance and terrorism The chapters in this book were originally published in *Critical Studies on Terrorism* [Dying to Win](#) Robert Anthony Pape,2006 **The Oxford Handbook of the History of Terrorism** Carola Dietze,Claudia Verhoeven,2022 The Oxford Handbook of the History of Terrorism presents a re evaluation of the major narratives in the history of terrorism exploring the emergence and the use of terrorism in world history from antiquity up to the twenty first century The volume presents terrorism as a historically specific form of political violence that was generated by modern Western culture and then transported around the globe where it interacted with and was transformed in accordance with local conditions It offers cogent arguments and well documented case studies that support a reading of terrorism as a modern phenomenon as well as sustained analyses of the challenges involved in the application of the theories and practices of modernity and terrorism to non Western parts of the world both for historical actors and academic commentators **War on Hate** Henry Kopel,2021-07-12 The UN outlawed genocide in 1948 and the United States launched a war on terror in 2001 yet still today neither genocide nor terrorism shows any sign of abating This book explains why those efforts have fallen short and identifies policies that can prevent such carnage The key is getting the causation analysis right Conventional wisdom emphasizes ancient hatreds poverty and the impact of Western colonialism as drivers of mass violence But far more important is the inciting power of mass ideological hate propaganda this is what activates the drive to commit mass atrocities and creates the multitude of perpetrators needed to conduct a genocide or sustain a terror campaign A secondary causal factor is illiberal dualistic political culture this is the breeding ground for the extremist us vs them ideologies that always precipitate episodes of mass hate incitement A two tiered policy response naturally follows from this analysis in the short term several targeted interventions to curtail outbreaks of such incitement and in the long term support for indigenous agents of liberalization in venues most at risk for ideologically driven violence *Inside Terrorism* Bruce Hoffman,2017-09-05 Bruce Hoffman s *Inside Terrorism* has remained the seminal work for understanding the historical evolution of terrorism and the terrorist mind set In this revised third edition of his classic text Hoffman analyzes the latest developments in global terrorism offering insight into new adversaries motivations strategies and tactics He focuses on the rise of ISIS and the resilience of al Qaeda terrorist exploitation of the Internet and embrace of social media radicalization of foreign fighters and potential future trends including the repercussions of a post caliphate ISIS

Hoffman examines the demographics of contemporary terrorist leaders and recruits the continued use of suicide bombers and the likelihood of a chemical biological radiological or nuclear terrorist strike He also considers the resurgence of violent antigovernment militants including white supremacists and opponents of abortion He argues that the war on terrorism did not end with Osama bin Laden s death and that ongoing instability and strife in Syria Iraq Afghanistan Libya and Yemen among other places will both sustain terrorist movements and have broad implications for domestic and international security around the globe

Political Psychology David Patrick Houghton,2025-10-31 What shapes political behavior more the situations in which individuals find themselves or the internal psychological makeup beliefs values and so on of those individuals This is perhaps the leading division within the psychological study of politics today *Political Psychology Situations Individuals and Cases* 3rd edition provides a concise readable and conceptually organized introduction to the topic of political psychology by examining this very question Using this situationism dispositionism framework which roughly parallels the concerns of social psychology and cognitive neuroscience this book focuses on such key explanatory mechanisms as emotion cognition neuropolitics genopolitics personality beliefs and social identities to explore topics ranging from voting behavior and racism to terrorism and international relations The new edition is completely revised and contains new chapters to introduce and conclude the book as well as fundamentally updated material on for instance foreign policy decision making and electoral choice Houghton has also updated the text to bring us into the era of Donald J Trump to pick apart the results of the 2024 US presidential election and to include up and coming research in the areas of neuropolitics and genopolitics Houghton s clear and engaging examples directly challenge students to place themselves in both real and hypothetical situations which involve intense moral and political dilemmas This highly readable text will provide students with the conceptual foundation they need to make sense of the rapidly changing and increasingly important field of political psychology

The Business of War James A. Tyner,2006 The Business of War considers the myriad ways in which transnational labour migration intersects with the occupation of Iraq and examines the role of the USA in the Middle East The book places the war on terror within the practices of neoliberalism but also links this with migration issues and argues that it is all part of a larger business of conflict

Rethinking Religion and World Affairs Timothy Samuel Shah,Alfred C. Stepan,Monica Duffy Toft,2012-03-22 Drawing on the work of leading scholars as well as policy makers and analysts this volume offers the most comprehensive and accessible exploration to date of the major puzzles issues and questions surrounding the complex and increasingly visible role of religion in world affairs

Air Power in UN Operations A. Walter Dorn,2016-03-23 Air power for warfighting is a story that s been told many times Air power for peacekeeping and UN enforcement is a story that desperately needs to be told For the first time this volume covers the fascinating range of aerial peace functions In rich detail it describes aircraft transporting vital supplies to UN peacekeepers and massive amounts of humanitarian aid to war affected populations aircraft serving as the eyes in sky to keep watch for the world organization and

combat aircraft enforcing the peace Rich poignant case studies illuminate the past and present use of UN air power pointing the way for the future This book impressively fills the large gap in the current literature on peace operations on the United Nations and on air power generally **Fool's Errand** Scott Horton,2017 After more than a decade and a half the results are in The U S government has been unable to achieve its goals in Afghanistan Even worse what state it has been able to achieve there is completely unsustainable and certain to fall apart when the occupation is finally called off and America does come home The politicians generals and intelligence officers behind this unending catastrophe who always promise they can fix these problems with just a little bit more time money and military force have lost all credibility The truth is America s Afghan war is an irredeemable disaster It was meant to be a trap in the first place America is not only failing to defeat its enemies but is destroying itself just as Osama bin Laden and al Qaeda always intended Fool s Errand is an attempt to present the American people with the reality of this forgotten war because only the ignorance of pride and refusal to admit they have been deceived can prevent Americans from realizing they have supported a policy that is destructive to the United States as well as Afghanistan from Introduction Harvard Political Review ,2005 *The Asymmetric Power of Terrorism* Josef Schröfl,Samuel R. Schubert,2005 Understanding Al Qaeda Mohammad-Mahmoud Mohamedou,2007 Investigates the 20 year history of Al Qaeda and examines how Western governments can help end the violence *Debates of the Senate: Official Report (Hansard)*. Canada. Parliament. Senate,2009 **Symposium 9/11 Five Years on** ,2007 **Suicide Terror** Henry Morgenstern,Ophir Falk,2009-07-07 Suicide Terror Understanding and Confronting the threat Edited by Ophir Falk and Henry Morgenstern Ophir Falk and Henry Morgenstern have compiled a book that should be read by anyone who is serious about winning the war on terror By painstakingly analyzing the empirical data they help us better understand the nature of our enemies and why they employ these barbaric tactics Most crucially they offer important insights on how terrorism can be effectively confronted and ultimately defeated In so doing they have performed an invaluable service for all those who are committed to win Public Law & Legal Theory Paper Series, Stanford Law School Barbara Fried,2008
