Stephens' Book of the Farm Henry Stephens, 1908 *A Queer New York* Jen Jack Giesecking, 2020-09-15 Winner 2021
Glenda Laws Award given by the American Association of Geographers The first lesbian and queer historical geography of
New York City Over the past few decades rapid gentrification in New York City has led to the disappearance of many lesbian
and queer spaces displacing some of the most marginalized members of the LGBTQ community In *A Queer New York* Jen Jack
Giesecking highlights the historic significance of these spaces mapping the political economic and geographic dispossession of
an important thriving community that once called certain New York neighborhoods home Focusing on well known
neighborhoods like Greenwich Village Park Slope Bedford Stuyvesant and Crown Heights Giesecking shows how lesbian and
queer neighborhoods have folded under the capitalist influence of white wealthy gentrifiers who have ultimately failed to
make room for them Nevertheless they highlight the ways lesbian and queer communities have succeeded in carving out
spaces and lives in a city that has consistently pushed its most vulnerable citizens away Beautifully written *A Queer New
York* is an eye opening account of how lesbians and queers have survived in the face of twenty first century gentrification and
urban development *Tertiary and Post-Tertiary Geology of Mull, Loch Aline, and Oban* Edward Battersby Bailey, 1924
