Andy Warhols Index:

Andy Warhol's Index (book). Andy Warhol, 1976 **Andy Warhol's Index (Book) With the Assistance of Stephen Shore (And Others) and Particularly David Paul. Several Photos. by Nat Finkelstein. Factory Fotos by Billy Name** Andy Warhol, 1967 Translating Warhol Reva Wolf, 2024-07-11 The first study of the translations of Andy Warhol's writing and ideas *Translating Warhol* reveals how translation has alternately censored, exposed, or otherwise affected the presentation of his political and social positions and attitudes and in turn the value we place on his art and person. Andy Warhol is one of the most influential artists of the 20th century and a vast global literature about Warhol and his work exists. Yet almost nothing has been written about the role of translations of his words in his international reputation. *Translating Warhol* fills this gap, developing the topic in multiple directions and in the context of the reception of Warhol's work in various countries. The numerous translations of Warhol's writings, words, and ideas offer a fertile case study of how American art was and is viewed from the outside. Both historical and theoretical aspects of translation are taken up, and individual chapters discuss French, German, Italian, and Swedish translations; Warhol's translations of his mother's native Rusyn language and culture; the Indian artist Bhupen Khakhar's performative translations of Warhol; and Warhol as translated for documentary television. *Translating Warhol* offers a fascinating, multi-faceted perspective on Warhol, contributing to our understanding of his place in history as well as to translation theory and inter-cultural exchange. *Corita Kent and the Language of Pop* Susan Dackerman, 2015-01-01 Exhibition catalog published in conjunction with the exhibition held at the Harvard Art Museums, Cambridge, Massachusetts, September 3, 2015, January 3, 2016, and at the San Antonio Museum of Art, San Antonio, Texas, February 13, May 8, 2016. *The Oxford History of the Novel in English* Cyrus R. K. Patell, Deborah Lindsay Williams, 2024-03-05 The *Oxford History of the Novel in English* is a twelve-volume series presenting a comprehensive, global, and up-to-date history of English language prose fiction, written by a large international team of scholars. The series is concerned with novels as a whole, not just the literary novel, and each volume includes chapters on the processes of production, distribution, and reception, and on popular fiction and the fictional sub-genres, as well as outlining the work of major novelists, movements, and tendencies. This book offers an account of US fiction during a period demarcated by two traumatic moments: the eve of the entry of the United States into the Second World War and the onset of the Covid-19 pandemic. The aftermath of the Second World War was arguably the high point of US nationalism, but in the years that followed, US writers would increasingly explore the possibility that US democracy was a failure, both at home and abroad. For so many of the writers whose work this volume explores, the idea of nation became suspect, as did the idea of national literature as the foundation for US writing. Looking at post-1940s writing, the literary historian might well chart a movement within literary cultures away from nationalism and toward what we would call cosmopolitanism: a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be

embraced rather than a problem to be solved During this period the novel has had significant competition for the US public's attention from other forms of narrative and media film television comic books videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms such as film television comic books and digital media and the emergent voices typically associated with multiculturalism in the United States
