**Angels** Rev. Msgr. J. Brian Bransfield, 2022-08-26 Angels are all around us They are not fairy tale creatures or New Age sprites but powerful beings created by God to reflect his light And while we often are not aware of them the angels are deeply interested in us In *Angels Our Guardians in Spiritual Battle* moral theologian author and speaker Msgr Brian Bransfield teaches us how to recognize the angels present in our lives Drawing on Scripture the Church Fathers and the Catechism of the Catholic Church Msgr Bransfield shows how the angels the good angels who serve God and the evil angels who fell with Lucifer influence us in powerful ways The evil angels are insidious as they seek to lure us into sin and away from God The good and holy angels help us combat the wiles of the demons and accompany us on our mission of sharing Christ with the world They serve as God's humble yet powerful messengers and our guardians in the wilderness of this life strengthening us against temptation Ultimately they lead us to the glory of the Resurrection so that we might share the victory of Jesus over sin and death

*Angels Burning* Thomas Sanchez, 1987-01-01 **Angels Burning/Ocean in View** Thomas Sanchez, Lawrence Clark Powell, 1988-01-01 *The Defoliation of America* Amy Marie Hay, 2021-12-14 In *The Defoliation of America* Amy M Hay profiles the attitudes understandings and motivations of grassroots activists who rose to fight the use of phenoxy herbicides commonly known as the Agent Orange chemicals in various aspects of American life during the post WWII era First introduced in 1946 these chemicals mimic hormones in broadleaf plants causing them to essentially grow to death while grass grains and other monocots remain unaffected By the 1950s millions of pounds of chemicals were produced annually for use in brush control weed eradication other agricultural applications and forest management The herbicides allowed suburban lawns to take root and become iconic symbols of success in American life The production and application of phenoxy defoliants continued to skyrocket in subsequent years encouraged by market forces and unimpeded by regulatory oversight By the late 1950s however pockets of skepticism and resistance had begun to appear The trend picked up steam after 1962 when Rachel Carson's *Silent Spring* directed mainstream attention to the harm modern chemicals were causing in the natural world But it wasn't until the Vietnam War when nearly 40 million gallons of Agent Orange and related herbicides were sprayed to clear the canopy and destroy crops in Southeast Asia that the long term damage associated with this group of chemicals began to attract widespread attention and alarm Using a wide array of sources and an interdisciplinary approach *The Defoliation of America* is organized in three parts Part 1 1945-70 examines the development use and responses to the new chemicals used to control weeds and remove jungle growth As the herbicides became militarized critics increasingly expressed concerns about defoliation in protests over US imperialism in Southeast Asia Part 2 1965-85 profiles three different women who influenced by Rachel Carson challenged the uses of the herbicides in the American West affecting US chemical policy and regulations in the process Part 3 1970-95 revisits the impact and legacies of defoliant use after the Vietnam War From countercultural containment and Nixon's declaration of the War on

Drugs to the toxic effects on American and Vietnamese veterans civilians and their children it became increasingly obvious that American herbicides damaged far more than forest canopies With sensitivity to the role gender played in these various protests Hay s study of the scientists health and environmental activists and veterans who fought US chemical regulatory policies and practices reveals the mechanisms obligations and constraints of state and scientific authority in midcentury America Hay also shows how these disparate and mostly forgotten citizen groups challenged the political consensus and were able to shift government and industry narratives of chemical safety
