Northern Ireland and the Politics of Reconciliation Dermot Keogh, Michael H. Haltzel, 1993 This collection adds to the extensive literature on Northern Ireland and Ireland by bringing together the leading academic and political figures working in the field and offering a comprehensive multidisciplinary overview of the historical process The topics discussed include the remote and proximate causes of the conflict fresh developments within the two states on the island the role of the Roman Catholic Church the rise of the ecumenical movement and the impact of the 1985 Anglo Irish Agreement on the triangular relationship between Dublin Belfast and London The volume concludes with an evaluation of likely impact of membership of the European Community on the conflict in Northern Ireland The contributors to this book do not offer any easy solutions but provide a context in which the problem may be better understood by the international scholarly community and by the interested general reader

Dracula's Crypt Joseph Valente, 2002 An ingenious reappraisal of a classic text *Dracula's Crypt* presents Stoker's novel as a subtly ironic commentary on England's preoccupation with racial purity Probing psychobiographical political and cultural elements of Stoker's background and milieu Joseph Valente distinguishes Stoker's viewpoint from that of his virulently racist hypermasculine vampire hunters showing how the author's dual Anglo Celtic heritage and uncertain status as an Irish parvenu among London's theatrical elite led him to espouse a progressive racial ideology at odds with the dominant Anglo Saxon supremacism In the light of Stoker's experience the shabby genteel Count Dracula can be seen as a doppelganger an ambiguous figure who is at once the blood conscious landed aristocrat and the bloodthirsty foreign invader

religion could intermingle dangerously Fear of popery was a major cause of the revolution of 1688 and at the beginning of the eighteenth century Presbyterians led Scottish opposition to a union until they were recognised as an established church At the end of the century the architects of the act of union with Ireland hoped finally to resolve the Catholic Question but as it does today constitutional change brought issues of national identity to the fore The eighteenth century witnessed the triumph of unionism on the larger island and the rise of nationalism and separatism across the Irish sea The Making of the United Kingdom seeks to explain that crucial divergence and gives an incisive account of the forging of Britishness the sense of a new nation Jim Smyth is Professor of History University of Notre Dame *Catalogue of the Library of the Peabody Institute of the City of Baltimore ...* Johns Hopkins University. Historical Dictionary of Ireland Frank A. Biletz, 2026-01-08 The Historical Dictionary of Ireland Second Edition provides a concise reliable and readable information on all aspects of Irish history society politics and culture *Lives of Victorian Political Figures II: Daniel O'Connell*, 2007 *Paths to a Settlement in Northern Ireland* Sean Farren, Robert Mulvihill, 2000 For generations in Northern Ireland unionist and nationalist communities have been frozen in isolation from one another preferring demonstrations of communal solidarity to negotiation and cooperation This absorbing book examines the many attempts to resolve the conflict in Northern Ireland beginning with the civil rights movement and Prime Minister Terence O'Neill's reform efforts in the mid 1960s continuing up to the Good Friday Agreement of 1998 It finds that early attempts at peacemaking suggested only mechanical political solutions which only deepened the antagonistic pattern of relationships It was not until these existing relationships were challenged most crucially through the Anglo Irish agreement of 1985 and subsequent initiatives jointly determined by the British and Irish governments that the main parties began to participate in efforts to create a democratic peace The authors contend that a political and cultural process is now in motion that gives peace its first real chance in Northern Ireland's history *The Failure of the Northern Ireland Peace Process* Gary Peatling, 2004 This book is a surprisingly broad study of the Northern Ireland conflict and peace process with an unusual and contentious hypothesis though one ultimately likely to prove useful even to those who disagree with it The book is influenced by a sense of the interlacing nature of political groups and dynamics in Northern Ireland which evinces understanding of though not empathy with even mutually exclusive positions in a way few writers on the Northern question draw out This sense that even groups often portrayed as intransigent find a constituency in Northern Ireland based upon the lived experience of groups and communities is underpinned by the book's view of identity and its consequences The book also addresses much discussed wider controversies such as debates surrounding immigration terrorism and September 11th and national identity It addresses these issues with unorthodox conclusions and it is guaranteed to be of interest to intelligent non-specialists as well as to academics and policy makers **Catalog of Manuscripts of the Massachusetts Historical Society** Massachusetts Historical Society. Library, 1969 **Theatre History Studies 2014, Vol. 33** Elizabeth Reitz

Mullenix, 2014-12-15 Volume 33 of Theatre History Studies explores war. War is a paradox: horrifying and compelling, galvanizing and devastating, a phenomenon that separates and decimates while at the same time creating and strengthening national identity and community bonds. War is the stuff of great drama. War and theatre is a subject of increasing popularity among scholars of theatre. The essays in this special edition of Theatre History Studies bring together a unique collection of work by thirteen innovative scholars whose work explores such topics as theatre performances during war times, theatre written and performed to resist war, and theatre that fosters and promotes war. The contributors to this volume write poignantly about nationhood and about how war through both propaganda and protest defines a people. The contributors also delve into numerous fascinating themes that transcend time, peoples, nations, and particular conflicts: the foundations of nationalism and the concepts of occupied and occupier, nostalgia and utopia, and patriotism and revolution. These essays survey a march of civil and international wars spanning three centuries. Arranged chronologically, they invite comparisons between themes and trace the development of the major themes of war. Ideas manifest in the theatre of one period recall ideologies and propaganda of the past, reflect those of the present, and anticipate wars to come.
