## **Anima Speaking Poems:**

Anima Speaking Virginia Davis,1994      Animal Poems John Hollander,2004 Collection of poems about animals from around the world      Speaking for Animals Margo DeMello,2013 This text contributes to the growing field of human animal studies by examining the human impulse evidenced in blogs social networking sites video games comic books and animal welfare literature to ventriloquize the animal voice      Animal Subjects Caroline Hovanec,2018-09-06 Animal Subjects finds a new understanding of animal life in the literature and science of the early twentieth century      **Poetry and Animals** Onno Oerlemans,2018-03-06 Why do poets write about animals What can poetry do for animals and what can animals do for poetry In some cases poetry inscribes meaning on animals turning them into symbols or caricatures and bringing them into the confines of human culture It also reveals and revels in the complexity of animals Poetry through its great variety and its inherently experimental nature has embraced the multifaceted nature of animals to cross blur and reimagine the boundaries between human and animal In *Poetry and Animals* Onno Oerlemans explores a broad range of English language poetry about animals from the Middle Ages to the contemporary world He presents a taxonomy of kinds of animal poems breaking down the categories and binary oppositions at the root of human thinking about animals The book considers several different types of poetry allegorical poems poems about the animal broadly conceived poems about species of animal poems about individual animals or the animal as individual and poems about hybrids and hybridity Through careful readings of dozens of poems that reveal generous and often sympathetic approaches to recognizing and valuing animals difference and similarity Oerlemans demonstrates how the forms and modes of poetry can sensitize us to the moral standing of animals and give us new ways to think through the problems of the human animal divide      Talking Animals in British Children's Fiction, 1786-1914 Tess Cosslett,2017-03-02 In her reappraisal of canonical works such as *Black Beauty* *Beautiful Joe* *Wind in the Willows* and *Peter Rabbit* Tess Cosslett traces how nineteenth century debates about the human and animal intersected with or left their mark on the venerable genre of the animal story written for children Effortlessly applying a range of critical approaches from Bakhtinian ideas of the carnivalesque to feminist postcolonial and ecocritical theory she raises important questions about the construction of the child reader the qualifications of the implied author and the possibilities of children's literature compared with literature written for adults Perhaps most crucially Cosslett examines how the issues of animal speech and animal subjectivity were managed at a time when the possession of language and consciousness had become a vital sign of the difference between humans and animals Topics of great contemporary concern such as the relation of the human and the natural masculine and feminine child and adult are investigated within their nineteenth century contexts making this an important book for nineteenth century scholars children's literature specialists and historians of science and childhood      **Biopolitics and Animal Species in Nineteenth-Century Literature and Science** Matthew Rowlinson,2024-02-01 Principles of species taxonomy were contested ground throughout the nineteenth century including those governing the

classification of humans Matthew Rowlinson shows that taxonomy was a literary and cultural project as much as a scientific one His investigation explores animal species in Romantic writers including Gilbert White and Keats taxonomies in Victorian lyrics and the nonsense botanies and alphabets of Edward Lear and species race and other forms of aggregated life in Darwin's writing showing how the latter views these as shaped by unconscious agency Engaging with theoretical debates at the intersection of animal studies and psychoanalysis and covering a wide range of science writing poetry and prose fiction this study shows the political and psychic stakes of questions about species identity and management This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details
